STATE OF NEW JERSEY

GENERAL ASSEMBLY

TUESDAY, January 8, 1963.

At 12 o'clock noon today, Tuesday, January 8, 1963, Speaker John W. Davis of Salem County, called to order the One Hundred and Eighty-seventh session of the General Assembly (the sixteenth under the Constitution adopted by the people in 1947) by reading the following call:

"This being the second Tuesday of January, the time fixed for the beginning of the Legislative year, the General Assembly of the State of New Jersey is now called to order."

Prayer was offered by Rev. Peter J. Matthews, S. J., Instructor, Fordham Preparatory School, Bronx, N. Y.

Upon calling the roll, the following members appeared and answered to their names:

Messrs. Barbour, Barkalow, Bateman, Beadleston, Biber, Bigley, Brady, Bressler, Brigiani, Crabiel, Davis, Doren, Farrington, Gimson, Gross, Halpin, Hauser, Hiering, Higgins, Hughes, Kay, Keegan, Keith, Kijewski, Koenig, Kordja, Krueger, Lubetkin, Lynch, Mandelbaum, Maraziti, Matthews, McCurrie, McGowan, Meloni, Miller, Minotty, Moraites, Musto, Panaro, Policastro, Randall, Richardson, Rimm, Sarcone, Savino, Sears, Smith, Sweeney, Tanzman, Vohdin, Wanner, Wegner, Werner, Wilson, Woodcock, Yost—57.

Absent was Mr. Rutherfurd—1.

The Clerk declared a quorum present.

The Speaker led in the Pledge of Allegiance to the Flag.

The "Star Spangled Banner" was sung by M. Donald Lang, accompanied by Mr. Bert. Fread.

Mr. Werner nominated Mr. Meloni as Temporary Chairman.

Seconded by Mrs. Hughes.

Mr. Crabiel moved that nominations be closed.

Which motion was adopted by the following vote:

In the affirmative were—

Messrs. Barbour, Barkalow, Bateman, Beadleston, Biber, Bigley, Bressler, Brigiani, Crabiel, Doren, Farrington, Gimson, Halpin, Hauser, Hiering, Higgins, Hughes, Kay, Keegan, Keith, Kijewski, Koenig, Kordja, Krueger, Lubetkin, Lynch, Mandelbaum, Maraziti, Matthews, McCurrie, McGowan, Miller, Minotty, Moraites, Musto, Panaro, Policastro, Randall, Richardson, Rimm, Rutherfurd, Sarcone, Savino, Sears, Smith, Sweeney, Tanzman, Vohdin, Wanner, Wegner, Werner, Wilson, Woodcock, Yost—54.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the number of copies of the Legislative Manual apportioned by law to the General Assembly be distributed under the direction of the Clerk of the One Hundred and Eighty-seventh General Assembly as follows: To each member of the General Assembly twenty (20) copies; to the Clerk, twenty (20) copies; to the Assistant Clerk, Speaker's Secretary, Clerk to the Majority Leader and Clerk to the Minority Leader, each two (2) copies; to the Journal Clerk, Sergeants-at-Arms, Supervisor of Bills, Bill Clerk, Calendar Clerk, Assistant Journal Clerks, Assistant Bill Clerks, Assistant Supervisors of Bills, Assistant Sergeants-at-Arms, Pages, Legislative Correspondents and Reporters, each one (1) copy.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That until further order the printer be authorized and instructed to provide supplies and services as listed herein:

1. One thousand (1,000) copies of all bills for the use of the General Assembly and for all public distribution, and seven hundred (700) copies of all official reprint bills;

2. Five hundred (500) copies of the weekly Minutes for the use of the General Assembly;

3. Mail to each member of the General Assembly, properly perforated and cut for filing, as soon as possible after they are printed, the following: One copy of each part of the Minutes of the General Assembly; one copy of each part of the Journal of the Senate; one copy of each printed bill and resolution;

4. Mail to the Clerk of the General Assembly, Secretary to the Speaker, Assistant Secretary to the Speaker, Clerk to the Majority Leader, Clerk to the Minority Leader, printed copies of all bills and Minutes of the General Assembly and Journal of the Senate, properly cut for filing.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That no floor passes be issued by any officer or member of the General Assembly other than the Speaker, with the further provision that the privilege of the floor may be extended by a resolution duly adopted.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Speaker be and is hereby authorized to appoint such assistants as he may deem necessary.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That each member of the General Assembly be authorized to secure secretarial services at an annual compensation of four hundred dollars ($400.00) per member.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Robert Burke be appointed as Special Bill Clerk, who shall be responsible for the distribution of printed bills and resolutions at such times as the Legislature is not in session, at a yearly compensation of eight hundred dollars ($800.00), payable at such times as the other officers and employees of the General Assembly are paid.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the working staff of the General Assembly shall at all times be subject to the direction of the Speaker and the Clerk, who shall have authority to designate to any member of the staff such duties as may be required.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That in the absence of the Clerk, the Assistant Clerk shall perform all duties imposed by law and the rules of the General Assembly upon the Clerk.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved by the General Assembly (the Senate concurring):

That all payrolls and bills for expenditures incurred by either House be passed for payment only after approval by the Secretary of the Senate or the Clerk of the General Assembly and the Chairman of the Ways and Means Committees of the respective Houses.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the "Official Manual for Use in Drafting Legislation for Introduction in the New Jersey Legislature," prepared and published by the Law Revision and Legislative Services, be adopted as the official manual of practice and procedure of the General Assembly governing the form of bills to be introduced in the General Assembly and governing the conduct of the preliminary examination of bills proposed for introduction in the General Assembly required by the Rules of the General Assembly; and

Be It Further Resolved, That in order to carry out said practice and procedure Charles deF. Besoré, John W. Ockford, William M. Lanning and H. Arthur Smith, Jr., be designated as counsel to the Committee on Revision and Amendment of Laws of the General Assembly and that the duties of such counsel shall be to conduct said preliminary examination of bills proposed for introduction in the General Assembly under the general supervision of the chairman of said committee and through the Division of Law Revision and Bill Drafting of the Law Revision and Legislative Services pursuant to law.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 8, 1963.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has organized and elected the Honorable William E. Ozzard, of the county of Somerset, President, and Henry H. Patterson, of the county of Monmouth, Secretary, and has proceeded to business.

HENRY H. PATTERSON,
Secretary of the Senate.

Prayer was delivered by Rabbi Max Davidson, Congregation Beth Mordecai, Perth Amboy.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 8, 1963.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following resolution:

BE IT RESOLVED *by the Senate of the State of New Jersey (the General Assembly concurring):*

That at 2:15 o'clock P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Message of His Excellency, Richard J. Hughes, Governor of the State of New Jersey, which will be delivered in person.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

The Senate message was then taken up and

Mr. Crabiel moved that the General Assembly concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

The Senate and General Assembly met in joint session for the purpose of hearing the annual message delivered by Governor Richard J. Hughes.

FIRST ANNUAL MESSAGE

Mr. President, Mr. Speaker and Members of the Senate and General Assembly:

About a year ago, in my inaugural address, I mentioned what I hoped would be a watchword for New Jersey during the next four years: Government unafraid to act in the people's service. Today, as I come before you to discharge my constitutional obligation to communicate the condition of the State, I think we may share a sense of achievement in the work that we have done, together, in this positive spirit. There is much yet to be achieved, but we have demonstrated that fully responsive government is well within our capability.

In 1962, New Jersey proved anew the capacity of a free and democratic system to act with determined purpose and necessary speed to meet the needs of the people.

In March of that year, we were confronted with an unprecedented natural disaster that threatened the destruction of our great resort industry with lasting damage to our seashore and other communities and posed a consequent threat to the economic and social well-being of the entire State. We responded very quickly with a body of legislation that has been translated into a meaningful program of recovery, with benefits that will be tallied for years to come. And this ability to master circumstances was demonstrated in other areas. We were able to turn a seeming impasse into a golden opportunity by combining into one unified program two apparently dissimilar projects, a great world trade center to maintain the leadership of the Port of New York, so vital in the life of our State, and the transformation of a bankrupt railway system into the keystone of a metropolitan transit network. Thus will be sustained the viability of scores of New Jersey communities; thus will be served the day-by-day needs of thousands of New Jersey commuters.

Again, there had been growing in this State, over the years, a concern over the controlling, and perhaps stifling, role of government in the distribution of milk, an essential of life for millions. This administration came to share this concern and ordered a searching review of the tangled pattern of controls that had developed. That examination produced a recommendation that we start anew to guarantee the consuming public of New Jersey the benefit of fair competition. This action required legislation to insure against monopoly and unfair trade practices that would victimize the consuming public just as inevitably as would arbitrary price regulations. You were quick to respond to this need, and, while preserving the accomplished benefits to the consumer, to assure maintenance of the markets of our dairy farmers during the transitional period.

And other instances could be recalled, in which, during the past year, you and I acted together, swiftly and justly, in the interest of the people.

We would do well, I am convinced, to retain this sense of urgency, if we are to meet the diverse problems of growth and progress that remain our unfinished business. The growing pride of the people in this State, which we all can sense, is there for our support. But there is also a growing concern of the people as to the future, which should sober us and guide us to ever higher achievement. And thus we have, together, a responsibility to the people of this State that transcends partisan interest or gain—a responsibility which is really bipartisan, resting upon us equally, because our programs are to benefit not Republicans or Democrats, as such, but all the people, *pro bono publico.* This responsibility, because of the very critical importance of the problems we must solve, is one which simply cannot be fulfilled in the face of extreme political partisanship.

There is, for instance, no Democratic or Republican way of dealing with urban renewal, with mental health, with highway construction. Traffic safety is not a partisan matter; death stalking our highways does not recognize political affiliation.

In making these observations, I recognize that our political parties do differ on some matters, indeed on some basic philosophies, and that the Legislature may well have its own views as to the desirability and specific detail of any program. But if we are determined to work together for the benefit of the people, these differences can be accommodated and become a source of strength leading to ever sounder, more acceptable programs.

No program for legislative action can be unfolded fully, of course, without a comprehensive discussion of its fiscal aspects. This week, we are to receive the Tenth Report of the Commission on State Tax Policy—a document which will have important bearing on the determinations we will make, not only for 1963, but for a much greater span of New Jersey's future.

This report, in its full scope, will be the product of a labor of almost two years. It will warrant the careful attention, not only of Governor and Legislature, but also of the public of New Jersey. I, therefore, will not attempt to treat with this report and with the basic financial considerations it certainly will evoke until January 28 at which time I shall deliver to you a special message.

To insure a clear delineation between the long term implications arising out of the report and the recommendations I will make in my annual budget message, I am requesting a postponement in the delivery date of the budget message to February 11. Legislation to that effect will be introduced today.

AN OBLIGATION TO ACT

Foremost among the responsibilities of government is the obligation to safeguard the lives of the governed. Nowhere in state government is this responsibility more manifest than in the effort to stem the swelling tide of death and injury on the highway. Therefore, I place this matter at the head of my list for legislative consideration.

Today, more than three million drivers and two and one-half million vehicles are licensed by the State of New Jersey. The death-dealing potential underlying these statistics is almost incalculable. It reaches into every home, humble or great. It imposes on us a solemn obligation to act—to act with speed and decision.

In 1961, 778 persons died on our highways. The most recent figures indicate that 1962 saw a grim increase of some 16 per cent. This means that more than 900 persons died on New Jersey highways last year and that there was an accompanying increase in injury with all its tragic consequences.

During the past session, I recommended certain revisions in our motor vehicle laws. Their design was to reduce the incidence of drinking and driving.

Alcohol has become a major factor in the area of traffic safety. New Jersey operates a comprehensive alcohol determination program. It is recognized as the best in the country. An autopsy is conducted on all persons who have been killed as a result of a motor vehicle accident if death resulted within the six-hour period preceding examination.

In 1961, there were 463 such autopsies. For the first eight months of 1962 there were 372 examinations. These examinations reveal an alcohol factor with approximately 60 per cent of all drivers who are killed in motor vehicle accidents.

Without question, our existing laws for dealing with drivers who insist on drinking alcoholic beverages are inadequate. The law now provides for a presumption of drunkenness if the blood alcohol content is 0.15 per cent or greater by weight. This level was set in 1939 pursuant to a recommendation of the American Medical Association. In 1960, the American Medical Association had occasion to reconsider this problem and recommended that 0.10 per cent be accepted as prima facie indication of drunkenness and went on to state that "many individuals are under the influence in the 0.05 to 0.10 per cent range."

New Jersey has had, within limits of the law, a forceful program of traffic safety. We cannot expect to achieve good results in this area, however, if we are content with past efforts.

I cannot urge you too strongly to adopt the "driving while impaired" legislation and the implied consent law that is essential to enforcement of this and other control measures. Both of these programs represent realistic attempts to reduce death rates that approach the awesome. Adequate safeguards have been placed in these laws to protect our motorists from arbitrary and unreasonable acts on the part of law enforcement officials. No person can be requested to take a drunkometer test unless he has been arrested under reasonable circumstances. The only test that a motorist can be required to take is a breath test. His right to have a physician of his own choosing administer breath or other tests is preserved. Every motorist is entitled to the results of the test he had taken and is also granted the right to a hearing to contest the reasonableness of the arresting officer's actions. With extensive safeguards such as these, I can see no reasonable basis for opposition to the passage of implied consent legislation.

But, as I have repeatedly indicated in making these proposals, I am not inflexible. I shall always be willing to listen to reasonable modifications. I must caution the Legislature, however, against any revisions which would render the law incapable of dealing with the serious situation we now face. It is not sufficient to have a traffic safety program in name only. We must have traffic safety in fact.

In addition to the laws relating to drunken driving, there will be re-submitted to you legislative proposals revising our laws relating to lighting requirements and brakes upon our commercial vehicles. Both of these proposals will bring our law into general conformity with the requirements imposed by the Interstate Commerce Commission. For the well-being of all motorists, it is necessary that all commercial vehicles be equipped with the most modern safety devices.

New Jersey has been the nation's leader in the establishment of interstate traffic law enforcement agreements. Many of our sister states have, or soon will have, under consideration two proposed interstate compacts—The Driver License Compact and the Vehicle Equipment Safety Compact—which seek to introduce uniform provisions among all the states on these subjects. These proposals warrant our careful study.

I recently approved the joint resolution providing for a study of the conduct of motor vehicle driver education programs in secondary schools. This commission, as soon as it is appointed, will devote itself to this most important aspect of traffic safety. Its recommendations will require close attention.

Our efforts in the field of highway safety have crossed State lines. It is unfortunate that we border on a state determined for some reason to maintain age restrictions on drinking which are weaker than those of the other 49 states. The tragic impact of this differential on our young people and those they encounter on the highways after a drinking trip to New York has been amply demonstrated. Although we have not yet been successful in persuading the State of New York to take meaningful action, we shall not abandon our efforts to save the lives threatened by the continued existence of this discordant law.

TOWARD MORE EFFECTIVE GOVERNMENT

I have often expressed my conviction that State government can and must assist more fully our counties and municipalities to better perform their duties and responsibilities. The burden that our local officials now carry is staggering. This can best be seen by comparing budgets—present and past.

Ten years ago local budgets, including those of school districts and counties, totaled approximately $650 million. This year these budgets will reach, and may exceed, the sum of $1.5 billion.

The State has the ability and the responsibility to assist our local officials in carrying out their tasks more efficiently and effectively. If the hundreds of millions in local taxes are to be spent wisely and in the public interest, it is incumbent upon the State to place at the disposal of our local governments the considerable information and leadership we have to offer. There can be no question that our local governments want and need such State cooperation. Indeed, a resolution to that effect was adopted as recently as the League of Municipalities Convention last November.

You are all aware that I have previously proposed, in general terms, that a new department be established in State government which would be vested with the responsibility of devoting itself to the problems of our communities. No State agency now has that specific responsibility.

In the desire to make this new department as effective and useful as possible, I directed a study of the means by which such a department could best be organized. This study is now completed and, based upon its findings, I shall submit legislation to establish a 15th department in State government to be known as the "Department of Community Affairs."

The existing functions which would be transferred to the new department include: (1) all housing and urban renewal activities carried on by the State including the operations of Bureau of Tenement House Supervision and the Bureau of Housing; (2) the Division of State and Regional Planning; (3) the Division of Local Government and the Local Property Tax Bureau; and (4) the Divisions on Aging and Youth.

In addition to these existing functions, the new department should be authorized to undertake the study of municipal problems and activities and to coordinate the distribution of State services to local governmental units. The department also should have a statistical unit which can act as a repository for factual data of use to our local governments and which could be capable of providing local governing officials with such information as required to permit the efficient operation of government.

In many senses, this is a modest proposal. But, to the extent it will provide for the first time a comprehensive State agency with the clear responsibility for actively assisting our local governments in their search for solutions to problems, it is a bold step. It is a step we must take now if we wish to preserve and maintain local government units as a vital force in our system of government. To achieve the benefits of home rule in its fullest measure, we must assist local governments in solving their problems, or reconcile ourselves to the inefficiency and waste of haphazard growth.

THE BALANCED COMMUNITY—HOUSING

We cannot turn our attention to the important problems of our communities generally without giving serious consideration to their requirements in one particular area. This is the need for the construction of middle income housing units in our urban centers. This need for housing is most sharply mirrored in the problems of our six largest cities.

These cities have a total population of well over 1 million. They represent a vital force in the culture and economic life of this State. Yet five of the six cities suffered a loss of population during the past decade—a decade which saw our State's population increase by almost 1¼ million. We all can recognize that the problems of our larger and older cities are extremely complex. What has been happening to them is merely symptomatic of conditions throughout the nation.

While action on many fronts may be necessary to arrest this disturbing trend, fundamental to any solution of the problems of our cities is the construction of adequate housing at a reasonable rental for the middle income families who traditionally have served as the foundation of a balanced community life. Unless these families can be retained by our cities, our other efforts will have only limited success.

The failure to provide decent middle income housing in established urban centers is forcing many of our people, particularly young families, to take up residence in suburban and rural areas which all too often are ill-equipped or unequipped to handle them and the demands for public services they bring with them. In addition, the urban renewal programs, designed to revitalize our central cities, are being stymied because of the lack of middle income housing. This housing shortage is preventing the required relocation of families and compelling local agencies to earmark urban renewal lands for purposes not in keeping with an overall plan for balanced community development.

In November 1956, the Legislative Middle Income Housing Study Commission found that there was a need for middle income housing in the State and that State financial assistance was required. The bills to implement this bi-partisan finding have never been approved by the full Legislature. If there was a need for middle income housing in 1956, there is an even more pressing demand for such housing today. We can continue to ignore this problem only at our peril.

By permitting our cities to decay, we harm more than the cities. The tax plight of our farmers, which I discuss in this message, is directly attributable to the demands for education and other services which former city dwellers are placing upon our rural areas. Furthermore, decay of the cities is injurious to the urban businesses which provide a livelihood for so many suburbanites.

Thus, the problems of the urban counties must be the concern of the people of our rural counties. They are partners in developing a balanced economy in this State which is essential to the viability of all our communities, urban, suburban and rural.

Since the bills which have been before this Legislature on middle income housing now are more than five years old, I have directed my staff to review this entire subject. Numerous conferences have been held with governmental officials, and representatives of public and private groups expert in the field of housing. Since the legislative report of 1956, New York State has embarked on a successful middle income housing program. We should benefit from their experience also. This spring I shall submit a comprehensive proposal for State participation in a program of middle income housing construction.

CIVIL RIGHTS—A TIME FOR CANDOR

On this hundredth anniversary of the Emancipation Proclamation, no discussion of the problems of our communities would be meaningful without a candid look at the question of equal rights for all our citizens. Of prime concern in New Jersey is the existence of inequality in housing opportunities for minority groups. Related to this inequality are myriad other problems: school segregation, spread of crime, health concerns, economic restriction and, for the minority groups, an overall dimming of the bright promise of America.

This state long has been a pioneer in seeking to guarantee the equality that first was spelled out in the Declaration of Independence. Our Division on Civil Rights, one of the first such bodies in the nation, has recorded solid achievements in its field. But, it has been handicapped over the years in translating high hopes into solid achievements by the absence of basic statutory weapons.

Nowhere is this authority more needed than in the area of equal housing opportunity. You have had before you for three years a "Fair Housing" bill that would guarantee our continued leadership. Heretofore, the Senate has been willing only to pass a diluted version of this program which offers as much opportunity for evasion as for achievement. I renew my plea for conclusive action on the matter of fair housing so noble words can become effective deeds.

Tied to full implementation of civil rights is the proposed transfer of the Division on Civil Rights from the Department of Education to the Department of Law and Public Safety. For reasons I have emphasized since my campaign for Governor, such a move would result in more effective enforcement without a diminution of the educational aspects of the civil rights programs. I have heard no open opposition to this change and if there exist any non-substantive differences, I am sure they can be resolved.

In another area, we should move to protect the rights of minority groups. At present, our law permits the employment by the courts of interpreters skilled in certain foreign languages. This authorization does not extend to the Spanish language, in which assistance is most needed in the New Jersey of today. Therefore, I shall submit proposed amendments of this law.

AN HISTORIC CELEBRATION

New Jersey is preparing to celebrate its 300th anniversary in 1964. Acting with foresight and wisdom we have created the New Jersey Tercentenary Commission. That Commission has done its work well. The proof of this is the thousands of our citizens who are preparing in scores of different ways to join enthusiastically the first statewide celebration.

Two Tercentenary developments are particularly pleasing. The business community of New Jersey is giving remarkable support, financial and otherwise, to Tercentenary planning and to the New Jersey Tercentenary Pavilion at the 1964-1965 New York World's Fair. Of equal importance, nearly 300 New Jersey municipalities and 20 counties have several thousand Tercentenary committeemen hard at work planning for 1964.

Soon this State will step off into a commemorative year that will instill in all a pride in community that will serve our State for years to come. I count it my good fortune that, as Governor, I will have the privilege of joining with all Jerseymen in telling a dynamic story of three centuries of people, purpose and progress. I know the Legislature will want to continue to support this important work.

A GROWING ECONOMY

New Jersey has maintained its position among the nation's leading states with substantial gains in population, business and employment. Our continued prosperity requires that government provide the conditions and services essential for vigorous economic growth.

We must approach the necessary investment in our economic growth with a spirit of enterprise recognizing that adequate public facilities and services—in law enforcement, in zoning and planning, in education, in transportation—are the assets which really attract enduring business and industry to our communities.

ECONOMIC DEVELOPMENT

Business and industry traditionally have found a natural attraction in New Jersey's location with its easy access to great markets. However, there are many other factors which influence industrial and business location. And, prospective industrial citizens should have readily available to them an accurate and informative inventory of the State's assets—availability of labor and industrial locations, transportation facilities, water supply, tax policy to name but a few. Further, they should know that in New Jersey they will find a State government determined to assist them in becoming established as partners in the New Jersey business community.

I intend to explore fully the means by which we can assure business and industrial leaders that they will receive full support from the Office of the Governor in gaining the information and assistance required for sound industrial growth for themselves and for New Jersey. And, in this pledge of assistance, I know that I can offer the full cooperation of New Jersey's business community, to those who wish to join us here.

As we all are vitally concerned with the national economic indicators which chart the pattern of the national economy, so it is essential for us to have sound data on the activity of the New Jersey economy. The Governor's Cabinet Economic Committee is attempting to provide this economic information in its Monthly Report, which recently has been made public and which you receive regularly. It is our hope that this information will become increasingly useful to business and government leaders as planned improvements are incorporated in the Monthly Report and as basic studies on various vital aspects of our economy are implemented.

THE LABOR FORCE

Legislative accomplishments during 1962 affecting the program of the Department of Labor and Industry to maintain us as a productive people included the Construction Safety Act, the Manpower Training and Retraining Act, and an interim increase in weekly workmen's compensation benefits.

Administratively, employment services were strengthened through stepped-up counseling, testing and placement activity; a successful training plan was inaugurated under the Area Redevelopment program, whereby unemployed or casual, low-paid seasonal farm workers are being taught new, higher paid skills; and the important Manpower Training and Retraining Act of 1962 was implemented to the end that modern society's need for technicians might be met and that New Jersey might continue to offer industry its traditional asset—one of the nation's most skilled and adaptable labor forces.

Special attention has been focused on the urgent problems of youth, featuring the establishment in Newark of one of the nation's two pilot research projects on Youth Career Development. In addition, the department has developed a summer program of community service to migrant farm families; established safety codes relating to pressure vessels and other mechanical equipment as well as our 100,000 construction workers; expanded the Vocational Rehabilitation Program; increased the minimum hourly wage rates of over 18,000 laundry, cleaning and dyeing occupations employees; and contributed in no small measure to a year free, with one or two exceptions, from major work stoppages.

Looking to the future, there will be resubmitted for your further consideration an urgently needed revision of our antiquated and inadequate laws relating to worker health and safety that follows the pattern of action established by passage of the Construction Safety Act, as well as legislation extending a statutory minimum wage to adult males and to occupations presently not covered. In addition, I shall present to you a proposal for an administratively feasible means of pre-determining prevailing wage rates applicable to public contracts and a long overdue labor relations law providing effective machinery for the peaceful settlement of labor-management disputes. I urge the Legislative Committee reviewing the Workmen's Compensation law to complete its studies as quickly as possible so that final action can be taken on this subject this year. New Jersey, as a modern industrial state, has lagged too long in these areas.

PUBLIC EMPLOYMENT

As a candidate, I found that pensions and retirement benefits for teachers and public employees occupied much of my attention. During the campaign, I pledged myself to support legislation which would restore originally anticipated benefits to those teachers and public employees whose retirement plans were affected adversely by changes in the Federal Social Security law. The enactment into law of Senate Bills Nos. 16 and 44 represent, I believe, a complete fulfillment of that pledge.

I also pledged to support legislation which would afford the members of our two major pension systems the opportunity to purchase, at their own expense, supplemental pension coverage to compensate for the Social Security offset from their pension. Legislation to carry out this pledge will be resubmitted to you early this year.

Important as retirement rights are, however, I think it is necessary that we recognize that our first concern must be the present needs of our employees. Retirement benefits are geared to the salary earned while employed. If our employees are treated fairly during their working years, they will be treated adequately during their years of earned retirement.

In line with this policy, consideration is being given to salary revision and adjustment as well as increases in the mileage rate paid for the use of personal automobiles for State business. I expect to make specific recommendations in my budget message.

The State has been considering means by which we can most effectively recruit and utilize personnel. Diverse training programs for State employees are now or soon will be in effect. These programs include in-service training, tuition and programs for courses that will improve employee work performance and training which will qualify employees who do not have college degrees to be eligible for promotion to certain positions for which a college education has been a pre-requisite.

Since the establishment of the Department of Civil Service, there has been a marked change in the responsibilities of government as well as significant changes in the structure of government itself. These changes make it desirable to review the effectiveness and appropriateness of our existing Civil Service provisions. During the past year, the Civil Service Department has undertaken its own study. This study has included such matters as veterans' preferences, the function of unclassified Civil Service positions and unclassified and promotion procedures. As soon as recommendations are available they will be brought to your attention for your consideration.

TRANSPORTATION—A CATALYST

In my inaugural message I mentioned that "our problems in nearly every field arise from the inevitability of growth and the demands of progress." That growth has continued during the past 12 months and the progress achieved in many areas of our State now demands that we sharpen the focus of our attention upon the free movement of people and goods—a catalyst for our burgeoning urban economy.

Significant strides were made in the field of transportation during 1962. Legislation authorizing the purchase of the Hudson and Manhattan Railroad by the Port of New York Authority; setting up a new agency to build and operate an Expressway from Camden to Atlantic City; permitting the State Highway Department to include essential ferry facilities in its Passenger Service Contract Program and also allowing it to participate in the cost of permanent commuter railroad improvements necessary to consolidate and coordinate service with the Hudson and Manhattan Tubes; approval of the bi-state compact setting up the Delaware River and Bay Authority; emphasis on plans for a high-speed transit line in South Jersey; and a number of important administrative moves by the Highway Department have laid the groundwork for a new era in transportation.

Now it is up to us to consolidate these gains and to ensure that the maximum benefit is realized from them.

The backbone of New Jersey's overall transportation network today is our State highway system. All of you are aware of the tremendous demands placed upon it and of the fact that many sections of highway are carrying traffic far in excess of design capacity. Likewise, I am certain that you have been made aware by your local officials that every mile of new state highway completed and put into service generates new demands upon county and municipal roads. It is a fact that the legislation now in effect has "frozen" State aid to counties and municipalities for local roads at a constant level for the past several years.

The combined current need for more and improved State and local highways, even without regard for the enormous traffic growth expected in the next decade, forces a realization that additional substantial expenditures are required.

It is much the same story with mass transit. Our passenger service contract program is designed to keep the commuter railroads alive until certain capital improvements and consolidations enable us to determine whether they will ever be able to stand on their own feet. The sum now provided annually by the State for this program, which amounts to the equivalent of one mile of urban interstate freeway, must be continued. We must seek to make effective use of the Commuter Benefit Tax, a levy which must be set aside for the needs of transportation between New York and New Jersey.

The problem of improving our overall transportation facilities thus becomes a problem of providing adequate financing. And to achieve proper planning and orderly execution, this financing should be made available on a long-term basis. A number of possibilities have been under consideration for some time and I hope to present a concrete proposal to you in the very near future. Since all of our modes and means of transportation are closely interwoven, so that a change in the character of highway transportation quickly affects the rail carriers, it can be seen that only a solution affecting all of the facilities I have mentioned could be expected to produce the best results.

The large number of railroad grade crossings in our State, and the potential hazards at many locations, require consideration of a substantial program of grade crossing elimination. This problem, by its very nature, also must be incorporated in any solution to our long-range transportation needs.

These needs must be explored—and explored with vision and imagination. To this end I have requested Rutgers, The State University, to sponsor a statewide forum, including regional meetings, to develop the breath-taking vista of New Jersey's transportation horizons. This will afford the fullest and most immediate consideration of the State's transportation needs as an integrated whole.

From this will emerge the blueprint upon which our transportation future will be built—indeed, upon which the future of our State depends.

UTILITIES—A FOUNDATION

Years of study and discussion were culminated last year in the adoption of the first major revision of the Public Utilities Law since its enactment in 1911. It can be expected that this major accomplishment will facilitate both the regulation and the operations of the utilities which serve as the foundation of a modern economic and community life.

Utility rate reductions resulting from private conferences, conducted in an admirable spirit of cooperation, without the necessity for protracted expensive formal rate proceedings, brought to New Jersey consumers an annual saving of $11.5 million in gas, electric and telephone service charges.

Close attention will be paid in coming months to the several proposed railroad mergers presently pending before the Interstate Commerce Commission to assure continuance of essential railroad freight and passenger service in New Jersey and to the establishment through joint efforts of Pennsylvania and New Jersey electric utilities of mammoth mine-mouth generating stations and ultra high voltage transmission facilities. Should legislative needs develop, they will be presented to you.

JETPORT—THRUST INTO THE FUTURE

New Jersey views with optimism the possibility of a giant new thrust into America's economic future with our State as its spearhead.

In accordance with my request to the Administrator of the Federal Aviation Agency a feasibility study on air traffic control for the proposed jetport in the Burlington-Ocean County area is underway at the National Aviation Facilities Experimental Center at Atlantic City. Evaluations of the study will be reported in May of 1963.

I am hopeful that this study will indicate that air traffic control will be capable of accommodating a new international jetport in the Burlington-Ocean County area. In addition to air traffic control considerations, the Burlington-Ocean County area is a most advantageous site as regards weather, noise, construction costs and future expansion—factors being investigated in a second study by the FAA which will be available about the same time the results are reported on the air traffic control study.

A jetport in the Burlington-Ocean County area would not only serve New Jersey but this entire section of the Northeast. Such a jetport would be one of the few airports capable of satisfying the regional needs of the supersonic transport. Aviation authorities do not envision more than six airports of this type in the Continental United States and, therefore, the responsibilities for constructing and maintaining such a facility go beyond state boundaries.

The legislative action that will be required depends, of course, upon the outcome of the current studies. As soon as the results of these studies are available, I shall bring them to your attention together with such recommendations as are appropriate considering the conclusions reached.

Because of the regional concept of a Burlington-Ocean jetport I am going to ask the Federal government to reappraise the Federal Aid to Airports Act as it applies to financial participation in airport construction. Such re-evaluation should consider broadening the class of airport facilities items eligible for federal construction aid.

THE MEADOWLANDS—A REDISCOVERED OPPORTUNITY

Last June, I suggested to the Meadowlands Regional Development Agency, an organization composed of the municipalities sharing the land of the Hackensack River Meadows, certain steps essential to any program for realization of a rediscovered opportunity in the development of these wetlands. This included a survey of riparian lands, participation and coordination in the comprehensive survey by the U. S. Army Corps of Engineers, and the preparation of a comprehensive regional master plan.

I am pleased to report that significant progress has been registered on these points. The State Bureau of Navigation has commenced on a survey of the riparian land in the Meadows, with a view to a final resolution of this issue in 1963.

The comprehensive survey by the Corps of Engineers is also underway and full cooperation has been achieved among the local state and federal agencies involved in this project. This survey will continue for several years, during which time there will be mutual exchange of information and a close coordination of activities.

In addition, the State has submitted to the Meadowlands Regional Development Agency a suggested planning program for the region emphasizing land use, economy and transportation considerations. Upon adoption of this planning program by the Agency, a regional planning board will have to be created in order to be eligible for a Federal grant. The application for this grant will be submitted by the State on behalf of the regional planning board, and will be matched by State and local funds.

Our continuing efforts will be required to achieve the ultimate objective of reclaiming and developing the Meadows. To this end an application for a demonstration study on the techniques and processes of intermunicipal action has been filed with the Federal Housing and Home Finance Agency. I am requesting an appropriation of $25,000 towards this study. This amount is to be matched by Federal funds.

Further, I am requesting the appropriation of the sum of $25,000 which, when combined and pooled with funds from other sources, will provide for the preparation of the comprehensive plan.

I believe that this program can lead us to our common goal, the successful reclamation and productive development of the Hackensack Meadowlands on a basis which will be of benefit to all our citizens.

THE FINANCIAL UNDERPINNING

The continued vitality of our financial institutions is an essential underpinning for the economic growth of the State. I stated last May at the New Jersey Bankers Association Convention that "* * * nothing will serve as a more effective brake on economic progress than an inadequate banking system which fails to recognize the financial needs of the state as they exist today and the demands that will spring from the expansiveness of tomorrow."

We must examine our banking structure to insure it is capable of meeting our needs. In doing this, due regard must be had for placing our financial institutions in a position to compete favorably with similar institutions in nearby states while preserving a healthy competitive status within our own State.

With this in mind, the Department of Banking and Insurance, together with the Banking Advisory Board, is considering proposals to liberalize the restrictions placed on branch banks. Their recommendations will be submitted for your consideration as soon as they are completed.

The need for a similar revision of the savings and loan association law has been recognized by that industry itself. Last year, a comprehensive revision was placed before you. I understand that it will be re-introduced this year. The suggestions of that industry warrant your close attention.

The Department of Banking and Insurance also has under review the need for supervision of mortgage companies. These companies are not now supervised or regulated by any agency except to the extent that they are subject to the laws concerning real estate brokers and salesmen. These companies hold large sums of money in escrow and handle extensive financial arrangements. From time to time, complaints have been received by the Department of Banking and Insurance alleging irregularities in these activities. The Department cannot satisfactorily investigate or resolve these complaints without some degree of regulatory authority. Proposals concerning the supervision of these companies will be submitted for your consideration.

A MORE PRODUCTIVE DOLLAR

The State Investment Council—a pioneer in administering the investment of public moneys—has admirably demonstrated the wisdom of its creation in 1950. In the past 12 years, the number of separate State funds which it administers has increased from 18 to 28 and these have been classified into groups having similar investment requirements. As a result of the constant supervision of these investments, the aggregate value of securities held in the funds has increased from $349 million to more than $1.1 billion and the effective rate of return achieved has been increased from 2.37% to 3.73%. As an aid to its quest for greater efficiency and higher earnings, the Council requires legislative authorization for the establishment of combined accounting procedures for our major pension funds. Bills for this purpose will be resubmitted for your consideration.

AN ASPECT OF TAXATION

While I am reserving an overall discussion of taxation for my fiscal and budget messages, there is one area involving taxation with which we should come to immediate grips. This concerns local real and personal property taxes. Since the decision in *Switz v. Middletown* in 1956, the law concerning the assessment of real and personal property has been in a state of uncertainty. For several years following that decision, the Legislature itself was incapable of devising a satisfactory formula to resolve the assessment problem. An apparent compromise solution was achieved in 1960 with the enactment of Chapter 51. Implementation of this law, which was to have become effective in the year 1962, twice has been delayed. The purpose of these postponements was to give all interested parties ample opportunity to review the potential effects of Chapter 51 and to make such corrections or modifications as seemed justified. The time has come, however, when we must face this question directly.

The Legislature has had two years to consider possible modifications of the law. To the extent that such modifications are desirable, there will be opportunity to enact them during this session. I will consider carefully any revisions the Legislature feels to be necessary, but I must stress the fact that time is short.

I do recommend that the Legislature act promptly on proposals to amend the Constitution to permit tax exemptions for qualified veterans and persons over the age of 65 to be fixed at a dollar amount deductible from the tax bill. Such action is necessary if we are to give the people of this State an opportunity to resolve the confusion that has resulted from the court's decision in the second *Switz* case concerning the computation of such assessments. Legislation also should be enacted to implement these constitutional amendments, if adopted by the people, so that the new method of computing these tax exemptions can be operative from the tax year starting in 1964.

OF FARMS AND TAXES

Because of the heavy industrialization of our State, there is the tendency to forget that agriculture remains a most important asset of this Garden State. Twenty-eight per cent, 1,431,000 acres, of the State's lands are devoted to agriculture. Agricultural production accounted for $312 million in 1962.

The value of agriculture to New Jersey, however, cannot be measured in dollars alone. Our State derives much benefit from the fact that this vast land acreage is devoted to a profitable enterprise at the same time that it preserves open space for our people. The value of such open land can be measured, in part, by our present $80 million Green Acres program of land acquisition. Moreover, the spiritual, moral and community strength of agriculture and those engaged in agriculture, forms an indispensable part of the very character of this "Garden State" and I am determined that family farming shall not disappear from the New Jersey scene.

We all realize that the New Jersey farmer has been beset by many problems. Some of his problems are caused not only by the legitimate competitive factors which all businessmen must meet but by the fact that his activity requires large land holdings. As local governing units have turned more and more to increased real property taxes to support education and other necessary functions of government, the tax burden of our agricultural people has increased sharply. To an extent this is inevitable and justifiable in view of the increased value of land in New Jersey. We cannot, however, expect agriculture to remain thriving in this State unless we can bring to this activity some element of tax stability.

I have appointed a committee on farm land tax assessment which is now engaged in preparing a constitutional amendment to permit agricultural and other open lands to be assessed by standards that would maintain these lands in their present socially desirable uses. The public is entitled, however, to safeguards against abuse of this law by those seeking speculative gain.

I expect the committee to report its recommendations to me and the Legislature in the very near future. As soon as its proposals are ready, I shall request that you give them priority consideration.

ON OTHER MATTERS AGRICULTURAL

MILK

Since 1933, with few exceptions, New Jersey consumers have purchased milk at or above minimum prices established by the State. Unfortunately, over the years it has become increasingly difficult to determine whether the prices fixed by State government bear any reasonable relationship to the production costs of the milk industry. The uncertainty of costs in this area prompted the State Supreme Court last summer to set aside minimum prices which had been established by the Office of Milk Industry. Following this action, I appointed a milk study committee to review the entire situation. This committee recommended and I concurred that all minimum prices should be removed. This was done by the Office of Milk Industry.

The removal of minimum prices restored the milk industry to a competitive position and provided lower milk prices for the benefit of our consumers. The removal of price regulations, however, brought with it the threat of unfair competition and the possibility of a price war. To guard against such a development and to protect the integrity of this essential industry, we agreed upon legislation providing for a six-month moratorium in the milk industry. This moratorium was established with price levels which resulted from competition, thus preserving for the consumer the benefits received from fair competition while extending to the industry a measure of price stability.

During the moratorium period, the Department of Agriculture and the Office of Milk Industry will proceed to establish and implement a uniform system of accounting and reporting of actual costs of marketing this vital commodity. Once established, this system should provide the basis for orderly milk marketing. Some legislation may be required to accomplish the necessary re-orientation of the Office of Milk Industry so that it can function effectively as a regulator rather than price fixer. Such proposals will be brought to your attention as they are developed.

MARKETING PROCEDURES

The Department of Agriculture is reviewing two measures of extreme importance to our agricultural industry which were before you for consideration last year. The egg marketing proposal is being revised to incorporate suggestions made at the public hearing held by the Senate. The Agricultural Marketing Order Authorization Act also will be modified to some extent. Both of these proposals are essential to the orderly marketing of New Jersey products in New Jersey markets and to the well-being of agriculture. They warrant the complete and immediate support of the Legislature.

PROTECTING A RESOURCE

The great Atlantic storm of last March left in its wake personal tragedies as well as serious financial and safety problems for the State, county and municipal governments.

Governmental agencies have worked to provide, first, emergency shore protection and, then, more permanent protection to restore the beaches and their protective structures to pre-storm status. Restoration will continue through the winter and spring to assure completion—a monumental undertaking, but an essential activity in view of the role of the seashore in the economic and community life of the entire State.

A conference was held in November, 1962, with officials of shore municipalities to obtain local views of the task ahead. The estimated cost of essential construction was reported at $14 million. This does not include additional work proposed by a number of shorefront municipalities under the Federal Accelerated Public Works Act of 1962.

Federal and State engineers are carefully examining the shore protection needs for today and tomorrow. All levels of government must act in concert to restore the shore area and to extend shore protection against erosion and future storms, as well as for accommodation of our growing population.

Much serious thought and effort has been given by this administration to the establishment of shorefront parks. Planning and action in this direction have advanced. It is appropriate that New Jersey, the early champion of beach protection and preservation for the citizen, again should take a leading position in this area.

GOVERNMENT IN HUMAN TERMS

As a goal of government the common good must include the many needs of man: his education, recreation, his health and safety. For society requires sound, well-balanced citizens for its health as well as their happiness. Further, a sense of social justice flows naturally from any concept of the common good to a just concern for the less fortunate who, through circumstances often beyond their control, find themselves in need of a helping hand.

Let us never forget that government is the people's instrument for joint accomplishment.

EDUCATION

The aspirations of society have been most clearly mirrored in the plans made for its youth. Educational opportunity is the hallmark of American society. In New Jersey, no other area of governmental activity commands more attention or a greater share of our resources than does education.

In 1962 the school population in New Jersey continued the steady increase of recent years, further driving home the fact that our schools will continue to make significant demands on the public income. These demands highlight the importance of a long needed revision of Title 18—the School Law—prepared by the Department of Education and now being circulated among school administrators throughout the State. I know it will receive your intensive consideration.

Main attention is now shifting to the State's role in the field of higher education. In May, we received from the State Board of Education the Strayer Report which made long needed projections of college enrollments and provided estimated costs of capital construction. Last year we opened the door to meeting these needs by enacting a bill providing for two-year county colleges. The State, the counties and the students would share the cost of these important facilities.

Also in the field of higher education was our action to amend the State scholarship law to raise the number of out-of-state scholarships from 15 to 35 per cent of the total. This action was taken to meet a critical need in certain sections of the State.

As we review the estimates of the numbers of our youth who will be seeking higher education in the years ahead, we know that our present facilities, public and private, are inadequate to meet the demand. We cannot but wonder whether the present pattern of distribution of our resources is efficient. More importantly, we must ask whether our facilities can measure up to the demands of excellence in education which are so essential to growth and leadership in a complex society.

We have reached a point where it is necessary to undertake a searching review of all our resources for higher education, both public and private, to evaluate their effectiveness in imparting quality education to an increasing number of students.

I therefore propose a broad study of the future of higher education in this State, and I shall appoint a panel of impartial authorities for this important evaluation.

GREEN ACRES—A PROGRESS REPORT

Toward the enrichment of our own lives and the lives of succeeding generations, we have made progress in 1962 that has evoked national attention. In November, 1961, the people approved a bond referendum to provide $60 million to buy lands for parks and other conservation and recreation purposes. For State purchases, $40 million was set aside, and $20 million was dedicated to State matching assistance for county and municipal purchases.

Eight new State park and recreation areas currently are under purchase negotiations. Thirteen existing State park and recreation areas are scheduled for additions. Together, they will add an estimated 44,500 acres to our State park system.

The apparent success of this phase of the Green Acres program, however, should not obscure the fact that the Green Acres legislation, other than for the actual land purchase price, does not provide for land development. The addition of new public land areas brings upon us the responsibility of protecting, maintaining and developing such areas so that the public may utilize them for recreational purposes. Although development need not and should not be on a crash program basis, sufficient facilities should be provided as soon as possible so that the public may enjoy the benefit of these open spaces.

NATURAL AREAS COUNCIL

During the past year, a Natural Areas Section was established in the Bureau of Parks and Recreation in accordance with chapter 51 of the Public Laws of 1961. This section is responsible for the acquisition and preservation of natural areas with unique value for educational, scientific and aesthetic purposes. A Natural Areas Council has been appointed and a program is underway utilizing parts of existing State-owned lands and additional lands to be acquired under the Green Acres Program. A much needed step toward the preservation of New Jersey's natural heritage has been taken.

INSTITUTIONS AND AGENCIES

Nowhere is the impact of government more clearly translated into human terms than in the area of institutions and agencies. Thus, we can view with considerable satisfaction the progress made to date in implementating the capital development program to expand and improve facilities in the Department of Institutions and Agencies. Under the initial appropriation early in the year, five projects moved swiftly to construction. You recently appropriated the remainder of the $40 million bond issue for three additional projects upon which bid results are pending. The addition of these new and improved facilities to our operational program will reduce markedly the problems which have confronted our institutions and their staffs.

Of equal importance in the area of improved service was the embodiment in legislation of the major recommendation of the Alexander Study Commission, which called for the reorganization of the Division of Welfare. The beneficial effects to be derived from simplification and improvement of administrative practices in this area can be expected to eliminate much of the misunderstanding attendant upon our welfare programs.

In addition, we also have strengthened the hand of agencies disbursing public assistance to cope with problems of fraud, misrepresentation and deceit, and have made available to county welfare boards the authority to file complaints in affiliation proceedings.

To maintain the impetus thus given to our public welfare and assistance programs, I suggest to you the following areas appropriate to further legislative activity:

MENTAL HEALTH

Rapid scientific, medical and social advances have made possible the elimination of much human suffering while reducing the burden of caring for the mentally ill and mentally retarded in State facilities. Yet, the downward trend in population of our State mental hospitals, which has been giving us much reassurance in the last five years, has shown signs of reversing itself. With the rate at which the total population of our State is increasing, we cannot hope to keep abreast of this great human problem unless we take prompt advantage of every insight modern medical practice provides. I urge your fresh consideration of the mental health bills which will make available simplified procedures for voluntary admissions to promote early, effective treatment without the stigma or expense of court commitment. With this legislation, we can proceed with the development of a broad, modernized program of diagnosis, treatment, care and rehabilitation while providing standards for determining impartially the responsibility of relatives and public agencies to pay for needed care.

Since the Community Mental Health Services Legislation became effective on July 15, 1957, we have seen an unprecedented citizens' interest, coupled with action on the community and county level, result in a significant increase in professional services for the mentally ill. Most counties already are spending more than the 20 cents per capita which current statutes authorize the State to provide for such services. I soon shall submit to you legislation which will provide for increased State financial participation to the end that additional mental health services may be made available.

BOARDING AND NURSING HOMES

Community facilities directed toward the care of the aging are expanding rapidly to meet the needs of this growing segment of our population. Because of the insecurities inherent in the situation of aged citizens, we have a particular responsibility to make certain that good quality care is provided in the varied types of facilities required by their individual needs.

Similarly, it is apparent that our community hospitals and related medical facilities must be operated in such manner as to insure the provision of a high standard of care and treatment.

To better achieve these goals, I shall suggest that our licensing programs for such facilities be strengthened and that constant vigilance be exercised by the authorities charged with this responsibility.

AID TO CHILDREN OF UNEMPLOYED

Recent Federal welfare legislation has reemphasized the basic values of administering public assistance in a manner that strengthens family unity. A new plan would make available to us additional Federal matching funds—amounting to $5.7 million annually—if we widen the scope of our children's assistance program. This program now is restricted to situations where at least one parent is out of the home or incapacitated. The broadening would include those needy families with children in which the dependency results from the unemployment of the parent. At present, provision is made for such families only through the

General Assistance program, administered by the municipalities which share the program's cost with the State. The redefinition of the New Jersey program which I shall submit to you will totally relieve the municipalities of direct financial responsibility for such cases since matching costs will be shared by the State and counties. The social and fiscal significance of this new plan merits the serious consideration of the Legislature.

KERR-MILLS IMPLEMENTATION

While reiterating our strong support for the President's program to finance medical care for senior citizens through Social Security, we cannot lose sight of the concurrent need for State legislation keyed to the Kerr-Mills Act of 1960, which would provide grants to the medically indigent. Such legislation, permitting us to share Federal funds now available, is essential from two standpoints: as a stopgap until Congressional approval of the well-merited Social Security approach, and, thereafter, for cases which may fall outside the Federal medicare program.

PLACEMENT OF CHILDREN

Present laws relating to interstate placement of children for foster care, adoption or treatment are wholly inadequate. Closer cooperation in the areas of investigation, supervisory control and maintenance of responsibility, through adoption of the Interstate Compact on the Placement of Children, can make available increased opportunities for good placements by broadening the geographic area within which proper safeguards could be assured. Legislation to that end will be presented to you in the near future.

THE PUBLIC'S HEALTH

The fact that New Jersey is the most urbanized State in the nation is most clearly impressed in the area of public health. Problems attendant to growing population and population densities are magnified in the area of sanitation, air and stream pollution and disease control.

During the past year, important legislative and administrative steps were taken to strengthen our air pollution law and to implement the State's sanitary code. In dealing with stream pollution, the Department of Health reviewed and approved plans for the construction of $50 million worth of stream pollution control projects. The department's authority to approve plant location on water sources was extended to include non-potable as well as potable watersheds.

As is always the case with growth, what already has been accomplished is but a small part of what remains to be done. The Department of Health, through the Commission on Radiation Protection, is considering amendments to the radiation code which would permit the State to assume responsibility for certain licensing and regulatory functions now conducted by the Atomic Energy Commission. Consideration also is being given to the development of programs for State financial aid to local health departments so that all of our citizens, no matter where they may live, work or play, may have the protection of essential public health services. At the present time, many of our localities are having difficulties in meeting the minimum standards of performance for local health departments which have been established by the State. The problems of providing adequate public health nursing services also are under review. They will be given intensive consideration at a Governors' Conference on Community Nursing Services March 6. To the extent that these programs and other plans now under consideration by the department need legislative assistance, proposals will be submitted to you during the course of the session.

There remain before you, however, several proposals which were recommended last session which have not yet been passed. The bill to grant to the Department of Health the authority to restrict the type of sewerage facilities that can be installed in areas hereafter developed could be considered a priority item. For too many of our municipalities, the problem of financing a program for sewage disposal is compounded because unsuitable sewerage facilities were utilized at the time that housing developments were constructed. In addition, the bill regulating the disposal of sewage and other materials from craft operated upon the waters of this State is essential to the effective control of water pollution. It will be resubmitted to you this year.

A new measure developed jointly by the Department of Health and the Attorney General's office should receive immediate consideration. This bill will provide for the licensing and control of commercial blood banks. There have been a number of recent instances of communicable diseases being spread through the use of contaminated blood which was obtained from commercial blood banks. This presents such a high danger to the general public that it should be brought under regulation immediately.

TO MEET THE PERIL

Still fresh in the minds of all are the anxious days of October when the storm clouds of the Caribbean served as a chilling reminder that the State, no less than the nation, must hold itself prepared against the awesome possibility of global conflict. In this area of urgency, several important projects demand prompt conclusion. The Emergency Civil Government Commission shortly will recommend legislation to provide for an orderly line of succession to the offices of the Executive, the Legislature and the Judiciary in the event of catastrophic enemy attack. Thereafter this group will extend its study to encompass government on the county and municipal level.

Recently we cooperated in the enactment of legislation authorizing a limited exemption from real property taxation for the construction of radiation fallout shelters in the home. Additionally, funds were appropriated for a study to determine the feasibility of establishing a shelter for the relocation of governmental operations in the event of such emergency. Now let us promptly resolve the question of school fall-out shelter construction and proceed to the enactment of such enabling legislation as is necessary and appropriate.

A program for the effective preservation of essential records and documents has also been developed. Legislation on this subject soon will be presented to you.

THE STRUCTURE OF GOVERNMENT

If government is to be responsive to the needs of the people and the communities in which they live, it must not burden them with suffocating regulations or prolonged delay in carrying on their business. Service to the people should be characterized by efficiency, by equity, by integrity in all branches and levels of their government.

From time to time it may be necessary to reorganize our government structure and to revise our procedures. A general survey of the opeation of State government by a special Committee on Efficiency and Economy is nearing completion. Its recommendations, when implemented, should enable us to conduct an even more efficient government at the State level. But there are certain specific areas of reform which I should like to call to your attention now.

THE COURT SYSTEM

It is now becoming fairly well known throughout the State that the shape of our court system may require further modification. We can, with propriety and understanding, view the complaint of our county court judges that while the burdens and responsibilities of their office can be equated with those of the Superior Court judges, the remuneration and other benefits derived from their station are disproportionate in comparison with the technically higher court. Such matters as judges' salaries, pensions, tenure and the like are presently under review to the end that detailed recommendations soon will be presented to you.

LAW AND PUBLIC-SAFETY

I have noted various problem areas which are rendered more acute because of the growth and development of our State. These factors have their impact also in the area of law enforcement. A growing and changing population which is as highly mobile as New Jersey's places the utmost stress upon our law enforcement officials. For this reason, it is imperative that the Legislature approve measures which will better equip our law enforcement officials, both State and local, for the continuing fight for effective law enforcement. I reiterate my previous request for the passage of a mandatory police training program for our municipalities. The Legislature should also act promptly on the proposals to authorize a uniform system of crime reports and to permit essential evidence to be obtained from a witness, by court order, without incriminating the witness.

Another proposal which will be resubmitted for your consideration is the proposed modernization of the tenement house laws. It is essential that this law be revised before the functions of the Tenement House Bureau are transferred into the new Department of Community Affairs.

The Department of Law and Public Safety will also submit several new proposals designed to protect the general public. The Department's Bureau of Securities has found its present program inadequate to the extent that it does not regulate real estate syndication. Such activities now amount to a multi-million dollar undertaking in New Jersey. They should be regulated.

The Department will also submit proposed revisions of the weights and measures laws and the laws concerning cemetery corporations. In both of these areas, it is essential that our laws be updated so that we can provide maximum protection to the general public.

LAW REVISION

Throughout this message I have commented upon the need to modernize certain titles of the Revised Statutes. These included our laws relating to corporations, education and weights and measures. In addition, other parts of the Revised Statutes require updating. The work on Title 40, it is to be hoped, is about to be concluded. Commissions have been created to revise our laws relating to eminent domain and riparian lands. Other commissions have been established to review the laws relating to elections and insurance.

Merely specifying these areas indicates the magnitude of the task. The basic inadequacy of our existing program of law revision is amply demonstrated, I believe, by this constant requirement of revision. Law revision should be of a continuing nature rather than a sporadic attempt every 10 or 15 years to update what has become obsolete in the intervening period. In this age of technical achievement, it would be well if we took advantage of techniques which were unknown and unavailable just a few decades ago.

I have been informed that a University of Pittsburgh project is placing the laws of Pennsylvania and New Jersey on electronic data processing equipment. This work, although of great potential value to the State of New Jersey, has proceeded to this point without cost to us. There remains, however, a certain amount of work to be done before the full benefits of this program can be obtained. The cost of that work is estimated to be $13,000. Considering the great utility this material will have in the revision work now being done, I shall request the Legislature to appropriate this amount.

CONFLICTS AND LOBBYISTS

Those who serve in or deal with government owe the general public the duty of conducting their affairs in a proper manner. New Jersey lacks the fundamental legislation, however, which would delineate the boundaries of proper conduct.

I renew my request for a conflict of interest law forbidding government officials and employees from engaging in activities or retaining private interests which conflict with their public responsibilities. The necessity for this legislation should be apparent to all. Because of an impasse between the Houses of the Legislature on this subject, I have directed my staff to undertake a review in the hope of developing a proposal acceptable to all. Such a proposal will be submitted to you in the near future.

A related subject is that of lobbying. While lobbying for or against legislation is a valid exercise of democratic rights, it is highly desirable to require the registration of those lobbyists who do so on a professional basis. The general public has a right to know who they are and whom they represent.

A REGULATORY OBLIGATION

New Jersey's natural advantages as a leading recreational State have been enhanced by the rising public interest in boating. This activity has imposed a regulatory obligation on the State.

The registration of power vessels as authorized by the Boat Numbering Act of 1962 has commenced. By April of this year approximately 20,000 boats will be registered with the State. Over the next three years, we will be renewing 75,000 boat registrations previously issued by the United States Coast Guard. During the forthcoming boating season, approximately 120,000 craft of 10 or more horsepower will be using New Jersey waters.

Most boat owners are sensible seamen. But the counterpart of the reckless driver on the highways now appears in greater numbers on the waterways. A small child, unlicensed and unaccompanied, may pilot a pleasure boat as long as 65 feet in New Jersey as well as most other states.

Operation by the reckless or inexperienced operator endangers the safety and pleasure of thousands of other boaters, swimmers and fishermen. Between January 1 and November 30, 1962, there were 151 marine accidents, bringing death to 51 and injury to 83 in New Jersey. During the year, 1961, there were 121 marine accidents involving 31 deaths and injury to 80.

These statistics indicate clearly that we must more efficiently regulate this activity. Therefore, I have requested that the Boat Regulation Commission devote special attention to the problems of boating safety—particularly in relation to the operation of power vessels on tidal waters of the State—and make recommendations on the licensing of power vessel operators. These recommendations will warrant serious attention.

EFFECTIVE STATE SERVICE

After almost a year of work and preparation, the Uniform Commercial Code was put into operation by the Department of State on January 2. Full facilities now are available to the banks, savings and loan institutions, credit unions, small loan companies and members of the bar who will function under this important codification. Streamlining of the department's administrative procedures has brought about substantial improvement in efficiency coupled with a reduction in the cost of operation with respect to the handling of correspondence and the administration of the election laws. Corporate annual report filings were increased to

64,000 as the result of an intensive drive and an impressive increase in the number of foreign corporations registering to do business in the State has been noted.

Further progress in these directions will depend upon the Legislature's favorable consideration of legislation that will be resubmitted to bring the fees charged by the Secretary of State into line with those charged by other states for like services. In addition, while the Revision of Title 14 (Corporations) is still in preparation, I will present several needed changes in that title for your interim consideration as well as a proposal for revision of our Trade-Mark Law.

CONCLUSION

Let us, then, proceed with the important business with which our fellow citizens have entrusted us. The world is growing up very quickly around us, and we must be neither laggard nor haphazard in planning our own growth and progress. In the Divine plan, it is ordained that we pass this way but once, and opportunities ignored in 1963 may never come within our reach again.

Our fellow citizens will hold us to a strict accountability, not for authorship but for achievement, not for political maneuver but for joint success, not for words but for action. And this is the essence of justice, for they have given us the tools we need to do the job—the stimulation inspired by their growing interest in government, the courage justified by their support, the sense of responsibility compelled by their trust and confidence. For my part I pledge every cooperation of my office, and hope that we can work together in a meaningful partnership.

Now let us turn, together, to our duty of shaping a body of law that will serve as guide and spur for a vital State.

RICHARD J. HUGHES,
Governor

January 8, 1963

Attest:

LAWRENCE BILDER,
Acting Secretary

"Bless This House," was sung by M. Donald Lang.

Benediction was given by the Reverend Frank Bloxhan, Pastor, St. John's Episcopal Church, Chews Landing.

Mr. Sandman moved that the Joint Session be adjourned.

Which motion was adopted.

The General Assembly reconvened.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. That the Legislative Index be purchased for the use of the members of the Senate and the General Assembly, and for such other persons as the President of the Senate and the Speaker of the General Assembly shall designate, one copy of each issue to be mailed to the local address of each member of the Senate and the General Assembly, and to each officer or other person designated to receive the same, and in addition thereto one copy of each issue shall be delivered at the State House for each member of the Senate and General Assembly and for each other person designated to receive the same; that the publisher of the Legislative Index shall from time to time furnish such special proofs of the Legislative Index as may be ordered by the President of the Senate or the Speaker of the General Assembly; that payment for the Legislative Index shall be at the rate of forty dollars ($40.00) for each subscription for a period not to exceed ten weeks, and three dollars and seventy-five cents ($3.75) per copy furnished thereafter, bills for services received to be submitted at the end of each five weeks; and that statements of expenses for the Legislative Index and special proofs for charges to the Senate and the General Assembly be referred to the Secretary of the Senate, and to the Clerk of the General Assembly, respectively, and when approved by them said approval shall be indicated by the signature of the Secretary of the Senate for an expense of the Senate, and the Clerk of the General Assembly, for an expense of the General Assembly, respectively, and said bills, when approved shall be forwarded to the Legislative Budget and Finance Director, shall be forwarded to the Director of the Division of Budget and Accounting, who shall execute and deliver warrant checks in settlement

thereof, and transmit the same forthwith to the State Treasurer for signature and delivery.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

A concurrent resolution to provide for the purchase and distribution of the Revised Statutes and Cumulative Supplements to the Revised Statutes of New Jersey by the Senate and General Assembly.

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. The following volumes shall be purchased and distributed to each member of the Senate and General Assembly such of the following as such member has not already received by distribution of the State, that is to say:

One complete set of the Revised Statutes (including volumes 4 and 5);

One volume, Revised Statutes Cumulative Supplement, 1938 to 1940;

One volume, Revised Statutes Cumulative Supplement, 1941 to 1944;

One volume, Revised Statutes Cumulative Supplement, 1945 to 1947;

One volume, Revised Statutes Cumulative Supplement, 1948 to 1950;

One volume, Revised Statutes Cumulative Supplement, 1951 to 1952;

One volume, Revised Statutes Cumulative Supplement, 1953 and 1954;

One volume, Revised Statutes Cumulative Supplement, 1955 to 1958;

One volume, Revised Statutes Cumulative Supplement, 1959 to 1962;

One volume, Titles 2A and 3A, New Jersey Statutes as revised in 1951, including 1962 pocket part;

and that payment therefor on the basis of $17.50 per copy for each volume of the Cumulative Supplements, $4.00 for the 1962 pocket part to Titles 2A and 3A, and $12.00 for each volume of the New Jersey Statutes, for the account of, the Senate and General Assembly, respectively, be referred to the sub-committee on Incidental Expenses of that house and when approved by said committee, said approval to be indicated by the signature of its chairman, and of the Secretary of the Senate or Clerk of the General Assembly, respectively, as an expense of said house, the said bills shall be forwarded to the Director of the Division of Budget and Accounting in the Department of the Treasury.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

A concurrent resolution to provide for subscriptions to the 1963 Current Service, New Jersey Legislation with binders by the Senate and General Assembly.

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. The Current Service, New Jersey Legislation for 1963 be subscribed to, including appropriate binders for the same in new subscriptions for the use of the members of the Senate and General Assembly and for such officers of the Senate and General Assembly and for such other persons as the President of the Senate and the Speaker of the General Assembly shall respectively designate, the same to be mailed to the local address of each member of the Senate and General Assembly and to the local address of each such officer or other person so designated to receive the same, as shall be furnished by the President of the Senate or Speaker of the General Assembly, respectively and that payment for each such subscription be made at the rate of thirty-five dollars ($35.00) and that statement of the expense for the subscriptions and binders furnished to the members and officers of, and to such other persons for the account of, the Senate and General Assembly, respectively, be referred to the Committee on Incidental Expenses of that house and when approved by said committee, said approval to be indicated by the signature of its chairman, and of the Secretary of the Senate or Clerk of the General Assembly, respectively, as an expense of said house, the said bills shall be forwarded to the Director of the Division of Budget and Accounting in the Department of the Treasury.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

State of New Jersey,
Senate Chamber,
January 8, 1963.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following resolution:

Be It Resolved, by the Senate of the State of New Jersey (the General Assembly concurring):

That the printer be directed to furnish, as soon as printed, and without waiting for the regular distribution, the number of copies of each bill, joint resolution and concurrent resolution introduced in the Senate and General Assembly, each committee substitute therefor, each official copy reprint thereof, and each printed amendment thereof, herein designated, to the following:

The Governor—21,

The Secretary of State—46,

The Attorney General—4,

Law Revision and Legislative Services—15,

State Library Legislative Reference Bureau, for use of said Bureau and for exchange with other States—100.

Be It Further Resolved, That the printer likewise furnish to the State Library, Legislative Reference Bureau, 20 copies of each weekly installment of the Journal of the Senate and Minutes of the General Assembly.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

The Senate message was then taken up, and

Mr. Meloni moved that the General Assembly concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

State of New Jersey,
Senate Chamber,
January 8, 1963

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following resolution:

Whereas, Section 52:27B–15 of the Revised Statutes requires that a request officer be appointed, and the act regulating receipts and disbursements requires the designation of approval officers for the payment of the necessary expenses of all divisions of the government; therefore,

Be It Resolved, by the Senate of the State of New Jersey (the General Assembly concurring):

That the Secretary of the Senate and the Clerk of the General Assembly be designated as request officers for the Legislature for the legislative year.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

The Senate message was then taken up, and

Mr. Meloni moved that the General Assembly concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

Mr. Davis offered the following resolution, which was read bp the Clerk and adopted:

Whereas, Earl F. ''Dusty'' Rhodes has served with dedication and devotion, as Secretary to the Majority Leader and Secretary to the Speaker, respectively, during the last two years; and

Whereas, Mr. Rhodes is presently incapacitated and confined to the hospital; now therefore, *Be It Resolved,* That the General Assembly express their sincere regrets that Mr. Rhodes is unable to be with them today and further express the hope that his recovery will be speedy and complete; and

Be It Further Resolved, That a copy of this resolution signed by the Speaker of the General Assembly and attested by the Clerk of the General Assembly be forwarded to Mr. Rhodes.

The following bills were introduced, were read for the first time by the titles, and were referred to committee as follows:

By Messrs. Meloni, Savino, Bateman, Keith, Krueger and Davis and Mrs. Hughes,

Assembly Bill No. 6, entitled "An act to provide for control of roadside signs adjacent to the National System of Interstate and Defense Highways, and other controlled-access expressways, freeways and parkways; and to provide for the administration of such controls,"

Referred to the Committee on Highways, Transportation and Public Utilities.

By Messrs. Meloni, Keegan, Lynch, Brady, Kijewski, Panaro, Koenig and McGowan,

Assembly Bill No. 48, entitled "An act concerning minimum wage standards; providing for the enforcement of such standards and the orders and regulations made with respect thereto; prescribing penalties for the violation thereof, and supplementing Title 34 of the Revised Statutes,"

Referred to the Committee on Labor and Industrial Relations.

By Messrs. Meloni, Keegan, Lynch, Brady, Kijewski, Sweeney, Farrington and Koenig,

Assembly Bill No. 49, entitled "An act concerning worker health and safety and establishing a Bureau of Engineering and Safety in the Department of Labor and Industry; establishing the New Jersey State Industrial Safety Committee and the Industrial Safety Board in the Department of Labor and Industry; supplementing Title 34 of the Revised Statutes and repealing sections 34:1–2 to 34:1–19, inclusive, 34:1–26 to 34:1–33, inclusive, 34:1–37; 34:3–1 to 34:3–20, inclusive, sections 34:3–23, 34:6–1 to 34:6–47, inclusive, 34:6–48 to 34:6–67.1, inclusive, 34:6–99 to 34:6–104, inclusive, and 34:6–137 to 34:6–143, inclusive of the Revised Statutes,''

Referred to the Committee on Labor and Industrial Relations.

By Messrs. Crabiel and Beadleston,

Assembly Bill No. 68, entitled ''An act to amend 'An act to regulate the practice of professional planning, establishing a State Board of Professional Planners in the Division of Professional Boards of the Department of Law and Public Safety, requiring the licensing of professional planners and the certification of planners-in-training by said board, and providing penalties for the violation of the provisions hereof,' approved July 10, 1962 (chapter 109, P. L. 1962),''

Referred to the Committee on State, County and Municipal Government.

By Messrs. Crabiel, Meloni, Lynch, Kijewski, Brady, Panaro, Farrington, Sweney, Koenig, Wilson and Mrs. Kordja,

Assembly Concurrent Resolution No. 8, entitled ''A concurrent resolution memorializing Congress to enact legislation providing for payment for hospital services, skilled nursing home services, and home health services furnished to aged beneficiaries under the old age, survivors, and disability insurance program,''

Without reference.

By Messrs. Crabiel, Musto and Hauser,

Assembly Bill No. 46, entitled ''An act concerning motor vehicles, amending section 39:4–50 of the Revised Statutes and supplementing 'An act concerning traffic regulation, and amending and supplementing chapter 4 of Title 39 of the Revised Statutes and certain other statutes relating thereto,' approved April 5, 1951 (P. L. 1951, c. 23),''

Without reference.

By Mr. Crabiel,

Assembly Bill No. 47, entitled "An act concerning the budget message to be transmitted by the Governor to the Legislature for the fiscal year July 1, 1963, to June 30, 1964,"

Without reference.

By Mrs. Hughes, Mrs. Kordja, and Messrs. Musto, Kijewski, Barbour, Policastro, Lynch and Brigiani,

Assembly Joint Resolution No. 1, entitled "A joint resolution memorializing the Governor and Legislature of the State of New York to increase to 21 years the minimum age for the purchase of alcoholic beverages in New York State,"

Without reference.

By Mr. Musto,

Assembly Resolution No. 1, entitled "An Assembly resolution to create an investigating committee consisting of 5 members, to be appointed by the Speaker of the General Assembly, with power to investigate any public body receiving funds in whole or in part from the State and to make such other investigations as may be directed by the General Assembly,"

Without reference.

By Messrs. Koenig, Werner, Hauser, Musto, Moraites, Woodcock and Brady,

Whereas, Judge Phelan served as President of the Morris County Bar Association; and

Whereas, Judge Phelan served with honor and distinction as Judge of the Morris County District Court for a period of eleven years; now therefore

Be It Resolved, That the General Assembly of the State of New Jersey extend its sincerest sympathy to Judge Phelan's widow, Mrs. Catherine O'Brien Phelan, his son Kevin Phelan, his daughter Mrs. Kathleen Lawless, his sister Catherine Phelan and his brother Daniel Phelan; and

Be It Further Resolved, That a copy of this resolution signed by the Speaker of the General Assembly and attested by the Clerk of the General Assembly be forwarded to Mrs. Catherine O'Brien Phelan at her home 707 Green Street, Boonton, New Jersey.

Messrs. Sarcone, Keegan and Matthews offered the following resolution, which was read by the Clerk and adopted:

Whereas, It has pleased Almighty God in His infinite wisdom to call from this world on January 18, 1963, James P. Mylod of Glen Ridge at the age of 83 years; and

Whereas, The Honorable James P. Mylod served honorably in the General Assembly of the State of New Jersey as a representative of Essex County during 1911; and

Whereas, Two years later James P. Mylod was appointed Essex County District Court Judge by the late Governor Woodrow Wilson, and presided there five years; and

Whereas, Judge Mylod was named attorney for Glen Ridge Borough in 1911 and served in that capacity for 35 years until his retirement in 1946; and

Whereas, In addition to his many activities in municipal, county and State government, Judge Mylod gave generously of himself in numerous civic, charitable and philanthropic organizations and causes to the betterment of his fellow men; and

Whereas, During both World Wars I and II, Judge Mylod served his country as a government agent; and

Whereas, During his lifetime, Judge Mylod served as a member of the Board of Trustees of the Seton Hall University and the Seton Hall College of Medicine and Dentistry; now, therefore,

Be It Resolved, by the General Assembly of New Jersey, that its profound regret on the untimely death of James P. Mylod is hereby expressed and the memory of his achievements as a devoted husband and father and as a public officer and humanitarian are hereby honored; and

Be It Further Resolved, That the General Assembly hereby expresses its profound condolences and sympathy to the bereaved family of the late James P. Mylod; and

Be It Further Resolved, That a copy of this resolution signed by the Speaker of the General Assembly and attested by its Clerk, be sent to his son, Philip J. Mylod, and to his daughters, Mrs. Mary Dolan and Mrs. Patricia McMenamin.

Messrs. Matthews and Sarcone offered the following resolution, which was read by the Clerk and adopted:

Whereas, The Almighty God, in His infinite wisdom, today has called from this world, Joseph M. Byrne, Jr., of Newark; and

Whereas, The Honorable Joseph M. Byrne, Jr., served honorably in the General Assembly in 1932 as a representative of Essex County; and

Whereas, He faithfully and honorably served his native State, county and community in various positions as a member of the Port of New York Authority from 1934 to 1953, as vice-chairman of the Port of New York Authority from 1944 to 1953, as a member of the City Commission of the city of Newark from 1937 to 1947; and as an officer in the Armed Forces of the United States during World War I; and

WHEREAS, Joseph M. Byrne's accomplishments and dedication in behalf of his fellow men extended beyond his official offices and included active membership in the Board of Trustees of Notre Dame University and the Newark College of Engineering; and

WHEREAS, Joseph M. Byrne was signally honored for his exemplary services on numerous occasions, including investment as Master Knight of the Sovereign Military Order of Malta; appointment as Knight of St. Gregory; recipient of the Distinguished Medal of the Port of New York Authority, of the "Man of the Year" award of the Notre Dame Alumni Club of New Jersey and of the unofficial but widely accepted, designation as "Notre Dame's Ambassador in the East," recipient of a Brotherhood Award of the National Conference of Christians and Jews and the Annual Achievement Award of the Newark Academy Alumni Association; now, therefore;

Be It Resolved by the General Assembly of the State of New Jersey that it hereby express its profound regret on the death of Joseph M. Bryne and that it hereby honor the memory of his achievements in behalf of his fellow men; and

Be It Further Resolved, That the General Assembly express its condolences and sympathy to the bereaved family of Joseph M. Bryne, Jr. and that a copy of this resolution signed by the Speaker and attested by its Clerk, be sent to his widow, Mrs. Marie Keller Byrne, to his sons, Richard J. and Joseph M. Byrne, III, to his daughters, Mrs. H. Frances Murphy, Mrs. John B. Schulte and Mrs. Richard H. Tierney.

Special Message to the Legislature by Richard J. Hughes, Governor of New Jersey, January 28, 1963:

SPECIAL MESSAGE TO THE LEGISLATURE

BY

RICHARD J. HUGHES, *Governor of New Jersey*

JANUARY 28, 1963

A PROGRAM FOR THE 1960s

Mr. President, Mr. Speaker, Members of the Senate and General Assembly:

The time has come when the people of New Jersey have reached a crossroads in the life of the State. We have been traveling to this point inevitably, not only during the brief year of my administration, but for many years before that. Now we have arrived at this point of decision—a judgment on fiscal policy which, in every sense of the word, is a judgment on the very future of New Jersey.

It is our present duty to decide whether New Jersey is to continue as a vital State, whether it shall seize the opportunities of dynamic growth in the important years ahead of us, or whether it shall flinch at the threshold of what should be the most meaningful period of progress in its history.

No one should be lulled into the nostalgic, but false, notion that it is possible in the complex world of today to stand still. As I have said recently to you, the world is growing up very quickly around us, and we must make sure that our own growth is neither laggard or haphazard. If we do not provide for progress, we will slide downhill into a mediocrity of which neither we nor our posterity will be proud. For there is no middle ground in the competition of growth. The decisions which we must make now will mold our destiny as a State and determine whether we shall lead, or follow, in the years ahead. I want New Jersey to lead, and I think you share that view.

For the past few weeks we have had before us a valuable document, the Tenth Report of the Commission on State Tax Policy. Not only have the members of this commission labored devotedly on a review of our fiscal structure, but they have explored the demands of the future on the public purse. In particular, they have dealt in their study of almost 2 years with the needs of education, which has become, and rightfully so, a primary obligation of government in New Jersey.

Their report serves as a foundation for the Program for the 1960s which I today propose that you and I, with the help of the people of New Jersey, begin to construct.

A Massive Effort

The fundamental obligations of a State such as New Jersey are clearly defined by government in its existing scope. True, there are new areas into which State government probably will venture in the coming years. But our basic responsibility today is to meet fully the demands of existing programs. And these indeed are great. Today I am proposing a massive new effort in 3 basic fields—education, transportation and institutional effort. Each represents an historic State responsibility, and the result of these efforts will be felt throughout the public structure.

In large part, I propose that we deal with the capital needs of this State. Thereby, we truly plan for the future. At the same time, I recommend that we undertake a broad expansion of State participation in the operating costs of our public educational system. This follows substantially the principal recommendation of the Commission on State Tax Policy and represents a significant step toward easing the ''maldistribution of the burden of the cost of State and local government'' discerned by the commission as well as by almost all other students of New Jersey's tax structure.

School costs have contributed in large part to the fact that New Jersey now has the highest per capita property tax burden in the United States. Most of us cannot but agree with the Commission's finding "that the local property tax burden is unduly heavy, having reached the point at which in many municipalities it cannot be increased . . . and that it is a deterrent to business and unfair to homeowners." Therefore, to achieve a better balance, I propose that the State increase substantially its help to local government in education as well as other areas.

In most of our previous thinking, there have seemed to be but two alternatives before the government of New Jersey: to stand still, a concept which we know to be impossible or, in order to meet the needs of the State, to impose a broad based tax, meaning either a sales or personal income levy. Indeed, most of the members of the Commission on State Tax Policy were divided, basically, only between a sales or income tax.

For many years, this State has been justly proud of the fact that it has developed its present position of leadership without imposition of either such burden. Our fiscal picture is a singular one. Today, 48 States levy a sales or income tax or both. Another State is in the midst of debating such a tax program. While I always have shared our traditional pride in our freedom from such taxation, I nevertheless came to realize that it might not always be so.

It was for this reason that, upon my nomination for this office in 1961, I fought, and fought hard and successfully, to exclude from the Democratic platform its traditional pledge against new taxes. I did this not for any love of taxes, but because I was determined as Governor to do my full duty; and I wanted no impediment in the way of fulfillment of that duty.

And thus it was that in that platform we pledged:

> . . . *continued opposition to any form of personal income or general sales tax unless it becomes clearly and irrevocably necessary to the maintenance of services essential to a modern and progressive State.*

Through the length and breadth of New Jersey, in home and in marketplace, I defined and repeated this pledge a thousand times over: that when the time would be reached that substantial need was demonstrated beyond any question, and when no possible alternative would be seen to exist, then and only then would I advocate that this State embrace a broad based form of taxation.

So that when I assumed the office of Governor, as all my fellow citizens must have understood very clearly, I did not accept the inevitability of a present commitment by New Jersey to a broad based tax.

And I do not accept it today.

While requesting that the Tax Policy study be broadened to include the full range of New Jersey's resources, my administration undertook its own review of the State's fiscal posture. The Tax Policy study, and my own review, and all that I have seen about me in this State and learned, without exception, have established to my mind that there is indeed a substantial need for money, and that a failure to meet this need would amount to a betrayal of New Jersey's future.

But by the same token, and from the same evidence, I cannot concede that no alternative exists to the imposition of a sales or income tax.

An Alternative

There is, in fact, an alternative, and I present it now for your consideration.

The key to the success of such proposal is the utilization of a solid and untapped resource of the future—the revenues of the New Jersey Turnpike, a highway which already serves as a link for the commerce of America. With proper utilization, it can become a financial foundation for New Jersey's growth. Without this magnificent asset, I would not present the program I do today.

This program for translating the abundance of the Turnpike into the future benefit of the State differs, I believe, from a number of proposals previously advanced. It envisions the full retirement of the Turnpike debt by 1972. With your authorization, the State, after this debt is retired, can plan on an annual return of approximately $42 million from the operation of the Turnpike. According to reliable and conservative projections, this sum would remain after maintenance, operating and improvement costs have been provided.

Without revision of our basic tax structure, these sums would facilitate retirement of a $750 million bond issue which I hereby propose. The proceeds of these bonds would meet New Jersey's principal capital construction needs of the 1960s.

The availability of these funds would free from our present budget many millions now appropriated for such capital purposes. And I propose that we use these millions.

I propose that they be employed for a broad expansion of State school aid and in prudent provision for retirement of the debt to be assumed.

Allocation of this $750 million would be made over a five-year period and its first benefits could be achieved in the fiscal year which we shall begin next July 1. If we undertake this program, I propose that we appropriate $150 million of the total in that year and in each of the four succeeding years. Actual application of much of this money would not be completed until 1970 or perhaps 1971. With proper allocation, I am convinced that New Jersey will have, as we enter the decade of the 1970s, the modern physical plan indispensable to the conduct of vital public business, and to our full participation in the dynamics of America's growth.

I propose that the $150 million be allocated annually in the following manner: $70 million for highway construction, $5 million for grade crossing elimination, $20 million for State aid for county and local highway construction, $12 million for capial programs for institutions and agencies, $25 million for higher education facilities, $2 million for construction of the recently authorized community college facilities, and $16 million for local school district construction programs.

By provision of the $75 million for highway construction and grade crossing elimination, a sum of $42 million would be freed from the current budget. The $20 million allocated for county and local highways would remove the present $8 million appropriation from present appropriation patterns. Because the bond issue would provide $16 million for local school construction, the present budget would be relieved of this obligation. Thus, a total of $66 million would be released from existing State appropriations.

Of this sum, I propose that we appropriate $50 million annually for increased State aid for current expenses of local school districts, now at an annual level of $74.3 million. This increased appropriation could be made in line with revised formulas recommended by the State Tax Policy Commission. It compares with an increase of $67.4 million in aid for operating expenses recommended by the Commission.

The remaining $16 million would be set aside to meet the debt service obligations of the $750 million bond issue for the transitional period between the time debt service begins and the date on which Turnpike surpluses become available.

In this program, we will be acting—and acting with determination—in three of the most important areas of State concern. Let us consider the results.

The Results

The additional $50 million a year which we will channel to school districts for operating expenses will serve as a tool with which we can rework our present State aid formula. We can take cognizance of the special needs of school districts with exploding populations and minimal tax ratables. We can bring the State's "foundation program" into better line with present-day reality. These actions were a most important recommendation of the Tax Policy Commission. While it is true that this program will not provide the full sums recommended by the Commission, I am convinced that we herewith make meaningful provivision that fits within present fiscal reality in this State.

In the field of higher education, we would come near to meeting the full projections of need. Last year, the State Board of Education received the "Strayer Report" on the Needs of New Jersey in Higher Education. That important document projected, to 1970, needed State capital construction expenditures of $134 million for our public institutions of higher learning. In this program, we provide $125 million, essentially meeting the need as defined in the Strayer Report. Furthermore, we allocate a total of $10 million to meet the State's share in bringing to reality the bold new program for community education that we envisioned with the passage of the Community College Act of 1962.

This massive investment in educational facilities will bear a rich return for all the people of New Jersey. As we observe daily, the development of the industry of the future—electronics, chemicals, pharmaceuticals, research and so many others—is directly related to the excellence of a State's educational facilities. In building these college and university facilities, we are building jobs for ourselves and our children. We are bringing a new prosperity to the business of this State. We are creating communities rich in social and cultural opportunity. And above all, we are passing on to our children the opportunity to prepare themselves for the fuller life that awaits those with the learning demanded by these complex times.

Transportation, of course, has a direct connection with the economic vitality of the State. Our efforts in this field have expanded greatly since enactment of the Federal interstate highway program and with public programs to maintain rail commuter service. Nevertheless, full realization of the opportunities of this program and corollary progress has been hampered by financial considerations. We do not deal here with all potential areas for transportation activity. To do so would require almost inexhaustible funds. But we do bring to bear on the problem many additional millions. And the immediate problem is a desperate one, as anyone who has risked his life on Route 22, or fumed in traffic delays at the Lincoln Tunnel, or hungered for new east-west crossings in Central and South Jersey, can testify. Even without a vision of the future, it would be necessary for us to move determinedly on this aspect of our highway program.

But there is an even broader impact. The availability of fine new highways in all sections of our State will bring new lustre to our attraction for business and industry. With these new highways, our all-important resort industry can plan to maintain its position as a leader in the nation.

Further, our increased transportation expenditure also will have an effect on local tax rates. It should be remembered that we will be increasing by 150 percent annual State allocations for county and local highway construction. Thus local and county governing bodies will be required to make a smaller demand on property taxpayers for such moneys. Combined with school aid, we thus will be directing $62 million in increased State aid for local property taxpayers.

I propose today allocation of $60 million for institutional construction. This is in addition to the funds provided by the various bond issues of the post-war years. The return on this investment, unlike that in the other areas, cannot be so directly measured in dollars and cents. Nor need it be. It represents the State acting to meet perhaps its highest responsibility, its responsibility to its people most in need of help. These are the mentally handicapped, the young law-breakers who stand on the threshold of further crime or rehabilitation for a useful life, and others whose last hope rests in the concern of the State.

This need cannot be minimized by anyone who has heard, as have I and my predecessors, the pleas of an anguished parent for a place in a State institution for his disturbed or retarded child, a child who cannot receive the care he needs at home and whose presence there brings tragedy to family life.

I ask your thorough study of these proposals and for your passage of the necessary legislation. This will include a bill to revise the basic Turnpike Authority law to permit general State use of Turnpike funds following retirement of the debt, and the necessary bond proposal.

A Joint Task

Then it shall be our joint task to take this program to the people. Our Constitution requires their approval of this bond issue. The necessary bills are being prepared by my office.

We open here no vast new areas for State spending. We strive merely to meet the responsibilities we assumed with our public offices. And importantly, we meet the demands of growth within our present fiscal framework.

One of those responsibilities, of course, is the duty to conduct the affairs of the State government with efficiency as well as equity. Toward that end, I sometime ago appointed a Committee on Efficiency and Economy and charged it with the review of the full operations of the State government. Its report, as you know, recently was submitted to me. It points the way to economies, and I have taken steps to begin their implementation. While welcome, these possible savings, certainly limited in extent, do not relieve us of the duty to find the hundreds of millions demanded of us by the New Jersey of the 1960s.

To suggest that these needs of the future can be met by economies, uninitiated by responsible Governors and undiscerned by bi-partisan Appropriations Committees over the past many years, would be sophistry of the rankest order.

By this bond issue financing, the State does assume substantial interest costs. Here again, I am convinced that we are acting in a fiscally prudent manner. The experience of the same post-war years that produced the public demands which we are meeting also developed an experience of steadily increasing capital costs, for government as well as for business and for the individual citizen.

For example, the United States Department of Commerce Construction Cost Index shows since 1949 an average annual increase of 3.6 percent. This compares with the anticipated interest cost of the bond issue you are to consider. Therefor, the economies achieved by rapid and large-scale construction can offset the cost of borrowing these huge sums.

In the vast new highway programs there is still another factor of economy. New Jersey is one of the most rapidly urbanizing States in the nation. Each year, land values rise along an almost astronomical curve. This new program will permit advance right-of-way acquisition on a scale never before seen in New Jersey. Throughout America, and particularly in our dynamic State, we can see where a dollar spent yesterday could have saved many more dollars today.

In Morris County, for example, land scheduled to be acquired for Interstate Route 80 has tripled in value in the last two years. One instance related to me by Commissioner Palmer involved open land right-of-way having a market value of $1,000 an acre which, because we lacked funds to buy advance right-of-way, only a few years later cost us $15,000 an acre.

Thus we would spend today to save tomorrow.

We should further remember that the economic vitality of New Jersey, with the certain availability of the Turnpike millions, places this bond issue well within the range of our State's credit capability.

Two weeks hence, I shall present to you my annual Budget Message. That document will deal with the recurring needs of State government. It will not take up the requirements of these broad programs for the future. As I have publicly said, there will be a mandated increase over the present revenue and spending programs. I shall propose to meet those needs by modifications in our present tax structure, not by any basic revision.

The Tax Policy Commission has made significant comments about the need for substantial revision—in addition to expansion—of our tax base. The objective of these recommendations is the infusion of a higher degree of equity into New Jersey fiscal policy. Furthermore, we stand in the shadow of court directives requiring similar revision. I am ready to work intensively with you in those areas during this year. I am confident that we shall achieve far-reaching solutions to those problems.

Today I have dealt with what I consider the State's basic needs. I feel that I have dealt with them in a manner that will enable New Jersey to enhance its already outstanding position of leadership in the life of America.

Should you, or the public by rejecting any referendum you might authorize, choose not to follow this road, then it will be our joint obligation to return to the certainty of a broad based tax. There can be no turning back in meeting our destiny as a great State. We must choose; and our choice must be one of responsibility and vision.

Richard J. Hughes, *Governor.*
January 28, 1963.

Attest:

Lawrence Bilder,
Acting Secretary.

Messrs. Bigley, Meloni, Rutherfurd, Wegner, Werner, Wilson and Yost—7.

The Clerk declared a quorum present.

Mr. Crabiel offered the following resolution which was read by the Clerk and adopted:

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

That at 2:00 P. M., both houses of the Legislature meet in joint session for the purpose of receiving the annual budget message of His Excellency Richard J. Hughes, Governor of the State of New Jersey, which will be delivered in person.

The Senate and General Assembly met in joint session.

Speaker Matthews turned the Chair over to Senate President Ozzard.

BUDGET MESSAGE

Mr. President, Mr. Speaker, Members of the Senate and General Assembly:

Today I present to you a budget of transition—transition between a state striving merely to keep its head above water in meeting the year-to-year demands of its development, and a state that is preparing boldly to come to grips with its future.

Today I come before you for the third time in a little more than a month.

In my Annual Message, I presented a program which outlines the full spectrum of this State's legislative and administrative needs.

Two weeks ago I presented this administration's "Program for the 1960s", a plan to meet the capital needs which are basic to any other public achievement by the State government.

Now, I present to you a double-edged program which, in one phase, discusses maintenance and necessary expansion of existing State activity and, in another aspect, plans the integration of this established activity with the capital program that, with your approval, will go before the people in November.

Accommodating our present revenue structure to the public responsibilities of 1963-64, I propose expanded or improved service in many vital areas. As I said two weeks ago, we can make this accommodation without resort to a broad based tax.

We will be required, however, to make provision for new or additional revenues in the sum of $37.5 million. This is necessitated by the mandatory requirements of normal growth and by a need to work modest improvements into existing State services and programs.

This budget calls for an expenditure of $547,479,498 which represents a net increase of $37,148,367 over appropriations in force for State programs in the current fiscal year. This increase results principally from statutory requirements of our State aid programs including State aid to education and welfare, normal merit increments for State employees, an overdue salary adjustment for State employees, mandated pension fund requirements, additional staff for many of our institutions for the mentally retarded and the mentally ill, and for our State-supported institutions for higher learning.

Recommended Revenue Program

After serious consideration of the many possible sources of revenue which have been suggested to balance the budget, I have concluded that the most feasible and yet equitable program should consist of the following:

1. Revision of racing dates and an increase in the amount retained from the parimutuel pools at the State's three flat racing tracks to produce an additional $4 million.

   This would include elimination of the so-called "dark days," involving extension of the present 150-day racing meet to 169 days without extending the racing season beyond the presently planned closing date in early November.

   This would produce $2.5 million.

   The present assessments against the pools at racing meets would be increased by 1 per cent to be shared equally by the State and by the tracks. Each would obtain $1.5 million.

   These revisions, I am assured, would benefit the State and improve racing at our tracks. The increased revenue for the tracks would enable them to enhance New Jersey racing with more adequate daily purses. Present regulations require the tracks to devote 43.2 per cent of such increase to improvement of purses. Our racing program must maintain its attractiveness in the face of heightened competition from nearby states.

2. Revision of alcoholic beverage taxes to produce $12.8 million.

This would include an increase from 3⅓ cents to 8 cents a gallon on beer, the first increase in this tax since repeal of Prohibition. This would produce $5.6 million. The taxes on still wine and vermouth which now stand at 10 cents and 15 cents a gallon, respectively, would be raised to a flat 25 cents to produce an additional $1.2 million.

The levy on liquor would be raised from $1.50 to $2.00 a gallon. This would bring an additional $6 million a year.

3. Assessment of a surtax—for State use—on the present levies imposed for local use on electric, gas, telephone and telegraph utilities. The tax presently apportioned to municipalities from these sources would in no way be disturbed. The surtax would be 20 per cent of present collections from electric and gas companies. The surtax collections from telephone and telegraph utilities—the tax base of which differs from electric and gas operations—would be made proportional.

These revisions will produce approximately $18.5 million.

In connection with the taxes now assessed, it should be noted that all of the proceeds are returned to the municipality in which the property of the public utility is situated. Today, adjoining municipalities receive no benefit from these taxes, although they frequently render educational and other services to those who are employed in the operation of such utility installation. By applying this surtax, an element of equity will be accomplished. The revenue derived by the State will be utilized for the benefit of all its citizens.

It also should be noted this surtax will require the utilities to bear only half of the tax as a charge against their net earnings. This will result because such a tax will be deductible by the utilities for Federal income tax purposes. Since these companies generally are in the 52 per cent bracket, their income taxes will be reduced by 52 per cent of the amount of surtax.

Before recommending this burden on the dynamic utility industry of this State, I took many factors into consideration, including the obvious fact of the partnership between these utilties and the State government in the continued growth of New Jersey. The effect of this tax will be watched very closely during the coming fiscal year.

4. A general upward revision of miscellaneous motor vehicle fees—not including registration or drivers' license fees–to yield $2.2 million. Information submitted by the Attorney General indicates that many existing service charges are lower than the cost of issuance and administration. In addition to providing needed revenue, these fees should be raised as a matter of equity.

This represents my proposal for a revenue program to balance the 1963-64 budget. It is important to note that none of these changes will require additional administrative costs.

With regard to possible new sources of revenue for ensuing years—within the framework of our present fiscal structure—it might be well for the Legislature to consider the advisability of night harness racing, particularly in view of the steadily continuing competitive pressure from our neighboring states which will have a sure impact upon our existing racing revenues.

BUDGET REQUESTS

Formal requests which were presented to the State Budget Director totalled $770,872,384. These included funds for capital construction in the Departments of Education, Institutions and Agencies and, to a limited degree, in the Highway Department. The Highway Commissioner refrained from requesting funds for the greatly broadened construction program the department is prepared to undertake should large additional sums become available. I point this out to indicate that even the formal requests made for 1963-64 do not portray the full needs of the State.

Aside from the requests presented by the various State departments, there have been other proposals from citizen groups, suggesting that New Jersey should embark on programs which would exceed one billion dollars. Of necessity, we have made substantial reductions in these requests. As a result, $222 million was cut from the amounts requested. This sum of course includes capital projects which we hope to provide through capitalization of future turnpike revenues.

THE BUDGET IN BRIEF

Estimated Surplus, July 1, 1963 (after providing for supplementals)	$1,664,907
Estimated Revenues for 1963-64	511,335,106
Additional Revenue to be raised	37,500,000
Total Resources for 1963-64	$550,500,013
Recommendations	
General State Operations	$253,637,963
State Aid	233,379,426
Capital Construction	60,462,109
Total Recommendations	$547,479,498
Estimated Surplus and Reserves, June 30, 1964	$3,020,515

EDUCATION

The amount recommended for education in 1963-64 is $222.9 million or $17.5 million more than the $205.4 million appropriation of 1962-63. Thus, the State's programs for education will receive the major share of the budget increase.

INCREASED ENROLLMENT

Increased enrollment at the State University and State Colleges necessitates a recommendation for 248 additional faculty members and 154 other employees at a cost of $2,465,000. As I indicated in last year's Budget Message, the pressure for education generated by the high birth rate in the late 1940s continues to intensify and will become even more apparent throughout this decade. Colleges and universities throughout the United States will feel the pressure of increasingly larger high school graduating classes. New Jersey no longer can rely on the migration of its students to out-of-state schools for higher education to minimize the impact of the demands on our institutions. Our sister states are faced with the same problem and must treat first with the needs of their own young people.

The requirements of the future are well portrayed by the Strayer Report on The Needs of New Jersey in Higher Education. In 1963-64 total enrollment of both full-time and part-time students in New Jersey's institutions of higher education will approximate 91,800 students. This enrollment, when equated to full-time students will total 39,900, an increase of 4,000 over the 35,900 of 1962-63. We plan, however, appropriations of $25 million annually from our capital bond issue for the essential construction at public institutions of higher learning.

State Scholarships

For the first time, this budget will reflect the cost of our new scholarship program for four full college classes. The number of scholarships will increase in 1963-64 by about 1,500 to a total of 10,570 with a value of $3,672,000, or $541,000 more than was appropriated in the current year.

Student Loan Program

During the coming year, we will be providing for the fourth year of the new student loan program. It is estimated that funds provided in this budget to underwrite loans to be made next year will permit 2,100 additional loans in the amount of $1,487,500 to be guaranteed by the State. Altogether, there will be nearly 5,000 such loans with a guaranteed value of $3,227,000.

State Aid for Education

State aid to local districts for education in this budget will amount to $113,431,921, an increase of $6,764,301 over the current fiscal year. This increase will provide added sums of $3.6 million for formula aid to local districts; $1.1 million for transportation aid; $600,000 for school building aid, and $700,000 in aid for maladjusted and atypical pupils. In addition, we made provision for inclusion of $50 million in additional formula aid to local school districts. This would result from approval of the capital program which would release other funds presently allotted to capital purposes.

In addition, $600,000 is included to inaugurate our new community college program. This amount should provide planning and architectural services for those counties which may embark on this program during 1963-64.

The capital program will permit a further appropriation of $2 million annually over the next five years for the State's share of community college construction costs.

I also have included $1,071,335 to equip and prepare the site for the new cultural center which is planned to open its doors to the public during the fiscal year 1963-64.

Also recommended as the State's share of actuarial requirements for the Teachers' Pension and Annuity Fund is $55,486,899, an increase of $7,592,925 from the current year. Of this sum, $3,194,000 represents the 1963-64 cost of the passage of Senate No. 16 which provided both social security and State pension benefits to those members of the Teachers' Pension and Annuity Fund who lost anticipated benefits through changes in Federal law.

INSTITUTIONS AND AGENCIES

For the State to discharge its most personal obligation—the obligation to those in its care—there is recommended $112,762,209, an increase of $5,350,728 over the current appropriation. The recommendation includes $68,937,709 for operation; $38,479,500 for State aid; and $5,345,000 for capital construction.

The additional sum includes the establishment of 329 new positions. Of these, 143 are allocated to the institutions for the mentally retarded in order to establish a more adequate staff for care and treatment of the severely handicapped.

During the last few years, we have sought to release to the community the more self-sufficient patients, many of whom had been supplementing employees in approved work programs at the institutions. This trend has continued and the population of the institutions for the mentally retarded increasingly is composed of those less able to render service. It is therefore necessary to employ more paid personnel to perform these services.

Unlike previous budgets for the State hospitals for the mentally ill, there appear, for the first time, 38 additional patient care positions to provide basic services for children diagnosed as brain-injured and emotionally disturbed. This recommendation is necessarily limited to basic care because our knowledge of these afflictions is limited and the results, to date, of treatment programs have been so disappointing for these patients. We shall maintain and strengthen our efforts to find new avenues of accomplishment—and of hope—in this grim area.

Funds in the amount of $175,000 are recommended for the Division of Welfare to administer the recently enacted program of medical assistance to the aged.

The State aid recommended for the various welfare programs operated by the Department of Institutions and Agencies, is $1,950,000 over the current year. The recommendation includes provision for the State's share of the new Kerr-Mills program to which I have just referred. There is also included $1,350,000—$214,000 more than the current year—as the State's share for community mental health services. This sum will cover the cost of legislation which I proposed in my annual message. It will raise the per capita allowance for this purpose from 20 cents to 25 cents.

The area of institutional effort is another in which we propose to take a giant step in the future with our capital program. On adoption of this plan, this budget would make provisions for the first of five annual appropriations of $12 million for vitally needed institutional facilities.

All activities and services of this Department are continually being evaluated. As an example, the Diagnostic Center is studying the disposition of original admissions.

The value of the psychiatric residency program in staff recruitment at our State hospitals again was demonstrated this year. Ten psychiatrists, all graduates of the program, accepted staff positions in our psychiatric facilities. No comparable source of qualified psychiatrists is available to us.

National Institute of Mental Health grants are received from time to time. Of particular significance, is a grant for study of the development of psychiatric-geriatric nursing facilities in connection with community hospitals. This represents an attempt to cope with the increasing admissions of such patients to State and county hospitals.

The Neuropsychiatric Institute is activating, as a demonstration project, a regional mental health center encompassing all-inclusive psychiatric in-patient and out-patient treatment services for a designated geographic area.

STATE EMPLOYEES SALARIES

If New Jersey is to maintain a high level of public service, it is essential that New Jersey maintain an adequate level of public compensation. Our State employees are aware of their increasing responsibility and of the need to conform with modern-day requirements of performance. The rewards of such employment should be consistent with such standards.

To that end, I directed the Department of Civil Service to undertake careful studies of pay rates in comparable public and private employment. The Department conducted a survey of 46 companies in New Jersey and neighboring areas in the Delaware Valley. The study compared, by title, the minimum of the State's salary ranges with the average starting pay for comparable positions. Another phase of the study also compared, by title, the mid-point in the State's present salary ranges with the mid-point of the average salary range in effect in the Federal Government, New York State, Connecticut, Pennsylvania, New York City and Philadelphia.

The findings of the study lead me to recommend, as a matter of equity and sound business judgment, a series of improvements in the State compensation plan. I propose:

(1) Elevation of each employee by one range grade and the payment of an across-the-board increment on July 1st.

This further contemplates that each employee will receive a normal increment in his new range on his anniversary date of employment;

(2) Selective range revision for certain titles in the skills, the semiskills, the protective services and technical and professional areas;

(3) Raising every full-time employee to an annual salary rate of no less than $3,000.

The last general adjustment in salaries of cabinet officers was made three years ago. The need for high level performance—carrying with it an obligation by the State for adequate remuneration—is even more manifest in positions of leadership such as those of department and division heads. Moreover, the effect of the salary range revision program will reduce the necessary differential between the salaries of top career employees and the heads of the organizations in which they work. To maintain the balance, I have included funds to raise salaries of cabinet officers by $2,500 and of most division directors by $1,000.

Total cost of these changes will be $9,560,000. I point out to you that only $60,000 of this sum will be needed to provide the increments for the cabinet officers and division heads.

Furthermore, this budget will include an additional $2.3 million in State contributions to the Public Employees' Retirement System. Of this, $1.4 million represents costs resulting from the adoption of Senate No. 44, the bill which accomplishes for certain State employees the same results as Senate No. 16 for a specified group of teachers.

I am now studying the question of salary increases for Judges at both the State and county levels and will support legislation being prepared which will change their statutory salary scales. When such legislation is ready for introduction, I recommend that it include the necessary appropriation to carry it out.

Law Enforcement

The sum of $22,392,305 is recommended for the operation of the Department of Law and Public Safety, an increase of $1,483,870.

It includes funds for the Division of State Police to provide 60 additional troopers. It further enables a 50-cent-a-day increase in the allowance for maintenance of members of this essential organization.

I also have included in the pension section of the budget the sum of $3.2 million as the first payment by the State to place the State Police Retirement and Benevolent Fund on an actuarially sound basis. The State House Commission, under present statute, is responsible for the administration of the Fund. For the past few years, the State Investment Council has issued warnings that necessary reserves soon will be inadequate for the payment of pensions to retired State troopers.

As a result, the State House Commission directed that actuarial studies be made to determine the condition of the fund and the additional revenues needed to place the fund on the same actuarial basis as are our other major pension funds. The results of these studies have been presented to the entire force. Its members have agreed to certain necessary revisions of present benefits and to an increase of the percentage of employee participation by new members. Legislation will be presented to enable implementation of the actuary's recommendation. The funds I am recommending will support such legislation.

Motor Vehicle Division

Recommendations for the operation of the Division of Motor Vehicles include $162,000 to embark on a safety-oriented program of issuing reflectorized rear plates on cars. The program will begin on January 1, 1964.

In addition, $105,955 is provided for 30 new positions in this agency to strengthen its internal management, to tighten its procedures to deal with violation drivers, and to expedite the analysis and pin-pointing of accident-frequent road locations. Additional funds are being recommended to better allow for overtime resulting from necessary week-end and holiday road patrol, as well as the manning of inspection stations. An additional outdoor vehicle inspection lane has been included for Levittown, Burlington County.

I include funds for the Division's computer system for electronic processing of driver information. This will produce, in the Spring of 1965, one of the most advanced driver control systems in the country. We thus will possess a more powerful instrument for improved traffic safety on the roads of this State.

Conservation and Economic Development

I am recommending appropriations of $11,333,266 for this Department. These funds include an additional $250,000 for development of our forests, parks and recreational facilities, $300,000 for the first payment for amortization of the Spruce Run and Round Valley Water Development Bonds and $125,000 for State aid to handicapped veterans and veterans' orphans. I also have included the sum of $350,000—$100,000 more than this year—for promotion that will translate the State's recreational, agricultural and industrial advantages into accelerated industrial and commercial development.

In the current fiscal year, because of the devastating storm of last March, $4 million was appropriated to this Department for rehabilitation of our shorefront, in addition to the customary annual appropriation of $1 million in State matching funds for beach protection.

Again, last December, a supplemental appropriation of $1 million was made which, together with $1 million in local funds, was available to match $2 million of Federal funds under the Public Works Acceleration Program. When the supplemental appropriation was made, it was generally agreed that it would take the place of the $1 million that would have been included in the forthcoming budget.

Nevertheless, if resources are available after next June 30, I would support additional appropriations for beach protection that could match Federal funds provided by continued implementation of the Accelerated Public Works Program.

HEALTH

I have recommended $4,062,467 for the Department of Health, or $332,732 more than the present year. This additional sum will permit the hiring of 22 new employees in vital programs.

The increase in venereal disease in our metropolitan areas requires constant vigilance. We also must expand the tuberculosis surveillance program to move closer toward eradication of this dread disease. While it is true that modern techniques make it possible to treat tubercular patients at home, it is equally true that the present trend away from institutions exposes all to greater risks from active carriers. These funds will augment those presently used to gather facts on active carriers.

Furthermore, we plan to expand our programs in environmental health, drug and food control, air sanitation and radiology.

TREASURY

In addition to the funds required for the operation of the Department of the Treasury, there is recommended $1,685,000 for capital purposes—an increase of $762,000 over that now available.

With the completion of the new Education Department Building, the new Library Building, Museum and Cultural Center, we must turn our attention to acquisition of the balance of the land in John Fitch Way for which we are under contract with the City of Trenton. Funds recommended include $500,000 for this purpose. In addition, $650,000 is provided to round out the State House area through the purchase of properties between the State House and Willow Street, and $500,000 to complete the electrical system serving the State House, State House Annex and the newly constructed State Education Building, Cultural Center, Library and Museum.

HIGHWAY

The amounts recommended for the operation of the Highway Department, for new construction and for State aid to local districts total $90,266,000, or $1,918,000 more than was provided in the current year. Our expanded capital program, if adopted, would add $30 million for State construction and $12 million in State aid to counties and municipalities.

New positions have been recommended to bolster the Right-of-Way Division, engineering services in the Construction Division and maintenance of the State's highway system. A large portion of the cost of new positions will be charged to Federal aid. The sums recommended will enable us to continue to match the full Federal aid allotted to New Jersey by the Federal government.

Of the recommendations, $12 million will be available for construction of state roads, the cost of which is not matched by the Federal government. The total amount recommended, together with Federal matching, will provide a construction program of $125.6 million. This is exclusive of the new program.

To continue our present program of contracting for commuter service with railroad carriers there is included $6 million, the same amount provided in the current year.

LABOR AND INDUSTRY

This Department has been provided with $7,719,155, representing $615,752 more than present appropriations. The bulk of the increase—$400,274—is for the operation of the Rehabilitation Commission, one of our most vital programs. The active caseload here will rise next year to 3,947 persons from the caseload of 3,479 on last June 30th. In all, 14 additional positions are provided to handle this increase and to continue, on a matching basis, activities heretofore supported wholly from State funds in the Workmen's Compensation Division, or wholly from Federal funds, as a rehabilitation project. Within this sum is $292,129 for additional services to clients served by the Commission and for extension, improvement, research and demonstration projects.

This effort will reap a rich human reward as well as substantial public savings in welfare payments that otherwise would have been required.

Personnel has been added in the Division of Workmen's Compensation to handle the growing number of hearings and claims. I also have included additional positions in the Bureau of Engineering and Safety of the Division of Labor to improve administration of the industrial and construction safety laws. And, not in the least, added funds will enable the Disability Insurance Service to cope with the increasing number of claims resulting from recent statutory changes affecting eligibility of expectant mothers.

Other Programs

I have presented to you the areas of State government in which the fiscal impact is the heaviest in the new year. Other departments, no less important, will require additional funds in lesser sums.

In the Department of State, additional money is recommended to staff the section handling Uniform Commercial Code activity. These funds are more than offset by the fees we can anticipate. The same is true of the Department of Banking and Insurance. Increases in this agency are, in the main, offset by additional revenues which it produces.

Adequate funds are provided for modest improvement of operations in the Departments of Civil Service, Agriculture, Defense, Public Utilities and the miscellaneous executive commissions.

I have not included funds in this budget for the first year's operation of the Department of Community Affairs which I discussed in my First Annual Message. The legislation to be submitted in this session establishing such a department will provide for its needs well within the context of available funds.

A Final Word

This then is my proposal for financing the multi-faceted needs of a great state in a year of continuing change. I believe that this program, when coupled with our capital proposals, meets those needs with responsibility, with the required imagination and with a sense of the capacity of the tax-paying public to do its share in the maintenance of essential public service.

I have not sought to evade my constitutional duty to propose specific courses of action. On you now devolves the obligation to study and question these proposals. I suggest that you do so with meticulous and intensive care. I particularly direct this suggestion to your able Joint Appropriations Committee which has a traditional mandate to scan, not only the budget recommendations, but the entire operation of the State government. This Committee, and indeed, the entire Legislature, can be assured of the full cooperation of this administration in seeking all necessary facts and any desired explanations of this data.

I look forward to working with you from this point in the evolution of a sound fiscal program for the forthcoming year. We are engaged in a most serious business and I commend it to your sober and cooperative consideration.

Respectfully submitted,

RICHARD J. HUGHES,
Governor of New Jersey.

Attest:

LAWRENCE BILDER,
Acting Secretary.

February 11, 1963.

Messrs. Brady, Hauser, Musto, Kijewski, McCurrie and Bressler offered the following resolution which was read by the Clerk and adopted:

Whereas, Former Senator Edward J. O'Mara, of Hudson County, died on February 9, 1963; and

Whereas, Senator O'Mara served with great distinction as the Senator from Hudson County from 1940 to 1953; and

Whereas, Senator O'Mara for many years has been one of the outstanding members of the legal profession, practicing law in Jersey City as the senior member of his firm; and

Whereas, Senator O'Mara rendered a most important service to the State as Chairman of the Committee on the Legislature in the State Constitutional Convention in 1947; and

Whereas, He was regarded as one of the greatest legislators in New Jersey history and contributed so very much legislatively and civically which was enhanced by the admiration and respect that he commanded from all walks of life; and

Whereas, Senator O'Mara was a trustee of St. Aloysius Church, Jersey City, a past-president of the Hudson County Bar Association; had received an honorary degree of Doctor of Laws from Fordham University; and in 1959 was designated the Catholic layman of the year and held important directorates in banking and business organizations, including the Prudential Life Insurance Company and the Commerical Trust Company of New Jersey; and

Whereas, Senator O'Mara was offered appointment to our State Supreme Court on three different occasions which, however, he felt obligated to decline; and

Whereas, Senator O'Mara gave most important addresses at conventions of the American Bar Association and of the New Jersey State Bar Association, and as a summer resident for many years of Monmouth County he had a host of friends there as well as in his native Hudson County and, because of his public services, also throughout the State; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

1. That public tribute is hereby paid to the memory of former State Senator Edward J. O'Mara, and profound regret is expressed upon his passing;

2. That the State House flag be flown at half-mast for the next 30 days; and

Be It Further Resolved, That this resolution be spread upon the Minutes of the General Assembly and that a copy, signed by the Speaker and attested by the Clerk of the General Assembly, be forwarded to the family of the late Senator Edward J. O'Mara.

''4. Any property owner required to file a return under this act, who fails or neglects to file a return within the time prescribed herein or who shall file a willfully false or fraudulent return, shall be assessed a penalty of $25.00 per day for each day of delinquency provided that the total penalty for such property owner shall not exceed $500.00 and, provided, further, that in the case of a taxpayer whose business personal property, at cost, does not exceed $25,000.00, there shall be imposed in lieu of such a penalty the appropriate penalty listed below:

$5.00 where the delinquency does not exceed 30 days; $10.00 where the delinquency does not exceed 60 days; $20.00 where the delinquency does not exceed 90 days; $25.00 for each additional 30 days in excess of 90 days, provided that in no event shall the total penalty for such property owner exceed $100.00.

''All penalties shall be enforceable and collectible by the Director, Division of Taxation pursuant to the penalty enforcement law (chapter 58 of Title 2A of the New Jersey Statutes) in a summary manner. The director, if satisfied that the failure to file on time was excusable, may abate or remit the whole or part of any penalty.

''5. The returns required to be filed under this act shall not be used as a basis for determination of any assessment but shall be used by the director only for the purpose of compiling and tabulating statistical information which he shall use for the purpose of analyzing the statutory law relating to the taxation of personal property used in business and making recommendations required under section 38 of the act hereby supplemented. All returns filed pursuant to this act shall be destroyed within 1 year from the date filed with the director.

''6. (a) All returns filed pursuant to this act shall be considered confidential and privileged and neither the director nor any employee in the Division of Taxation or any employee charged with the custody of such returns shall divulge or disclose any information obtained from said returns. Neither the director nor any employee engaged in such administration or charged with the custody of any such returns shall be required to produce any of them for inspection of any person or for use in any action or proceeding.

"(b) Nothing herein contained shall be construed to prevent:

"(1) The publication of statistics and information provided such materials have been so classified as to prevent the identification of a particular return and the items thereof; or

"(2) The director, in carrying out the purposes of this act, from disclosing the name and address of any person required to file under this act and information as to whether such person has compiled with the provisions of this act.

"7. The assessors and public officials of the municipalities of the State concerned with the application of the provisions of chapters 4 and 4a of Title 54 of the Revised Statutes shall co-operate with the Division of Taxation to the extent required by the director thereof and shall assist the director in distributing the forms provided for in section 3 of this act. On or before June 1, 1963, such assessors and public officials shall furnish to the director a list of the names and addresses of the taxpayers within their jurisdiction to whom they have mailed or distributed such forms. The director, within the limitation of available appropriations shall reimburse such municipalities for any costs incurred by them for printing and envelopes and for the cost incurred for postage used in mailing.

"8. There is hereby appropriated to the Division of Taxation in the Department of the Treasury the sum of $100,000.00 or so much thereof as shall be required to carry out the provisions of this act.

"9. This act shall take effect immediately."

Mr. Crabiel moved the adoption of the Assembly amendments to Senate Bill No. 101.

Which motion was adopted.

Senate Bill No. 101, entitled "An act to amend and supplement 'An act concerning taxation, supplementing chapter 4 of Title 54, revising parts of the statutory law, and repealing sections 54:1–31, 54:1–32 and 54:4–3.16 of the Revised Statutes,' approved June 15, 1960 (P. L. 1960, c. 51),"

With Assembly amendments,

Was taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Mr. Crabiel moved that the General Assembly recess until 3:00 o'clock P. M.

Which motion was adopted.

AFTERNOON SESSION

The General Assembly reconvened at 4:00 o'clock P. M.

Upon calling the roll, the following members appeared and answered to their names:

Messrs. Barbour, Barkalow, Bateman, Beadleston, Biber, Bigley, Brady, Bressler, Brigiani, Crabiel, Doren, Farrington, Gimson, Gross, Halpin, Hauser, Hiering, Higgins, Hughes, Kay, Keith, Kijewski, Koenig, Kordja, Lynch, Maraziti, Matthews (Speaker), McCurrie, Meloni, Minotty, Moraites, Musto, Panaro, Policastro, Randall, Rimm, Rutherfurd, Sarcone, Sears, Smith, Sweeney, Tanzman, Vohdin, Wanner, Wegner, Werner, Wilson, Woodcock, Yost—49.

The Clerk declared a quorum present.

Mr. Hauser offered the following resolution:

Resolved, That the Rules of the General Assembly for the 1962 session be adopted as the Rules of the General Assembly for the 1963 session with the following changes and amendments:

Amend Rule 13:11 by adding in line 2 after the word "negative," the words "or any bill has been passed or lost".

Add the following Rules to be numbered 15:1A, 15:1B, 15:1C, 15:1D, 15:1E, 15:1F, 15:1G.

15:1A. Whenever any member of the General Assembly shall desire to introduce any bill, which if enacted, would increase or decrease State revenues or increase State expenditures or would require the appropriation of State funds not set forth in dollars therein, he may request, in writing, the Legislative Budget and Finance Director to prepare and certify to him a fiscal note containing an estimate in dollars of the amount by which State revenues would be increased or decreased, or by which State expenditures would be increased, by reason of the enactment thereof, or of the amount of appropriation of State funds which would be required to carry out its purposes if it should be enacted, and he shall forward with such request a copy of said proposed bill.

15:1B. Whenever any proposed bill is delivered to the Committee on Revision and Amendment of Laws of the General Assembly for examination as to form prior to its introduction, the committee shall also determine whether such a bill, if enacted, would increase or decrease State revenues or increase State expenditures or would require the appropriation of State funds not set forth in dollars therein. If the committee shall determine that the bill will have such effect upon State revenues or expenditures, the committee shall, upon approval of the bill for introduction, endorse upon the original and each copy of said bill, a notice stating that examination of the bill indicates that such a fiscal note may be required for said bill, addressed to:

(a) The chairman of the committee to which said bill is designated to be referred, or

(b) The Speaker, if said bill is designated by him not to be referred.

15:1C. If the chairman of the committee to which any Senate or Assembly bill shall have been referred or the committee thereof, or, if such bill is not referred but is not immediately advanced to second reading after first reading then the Speaker shall determine that the effect of such bill, if enacted, would be to increase or decrease State revenues or to increase State expenditures or to require the appropriation of State funds not set forth in dollars therein and if the chairman of the committee or the committee or the Speaker, as the case may be, shall decide, in his or their opinion, that the statement attached to the bill, if any, does not set forth such effect completely or accurately, he or they may request the Legislative Budget and Finance Director, in writing, to cause to be prepared and to certify to him a fiscal note for the bill.

15:1D. Whenever any bill of the character described in Rule 15:1A is introduced and advanced to second reading, a fiscal note may be required to be furnished to it only by special order of the House and in case such an order is made the preparation of a fiscal note to said bill shall be requested, in writing, of the Legislative Budget and Finance Director by the Clerk of the General Assembly.

15:1E. When any request for a fiscal note is received by the Legislative Budget and Finance Director, said director shall thereupon make written request of the Director of the Division of Budget and Accounting in the Department of the Treasury to have such fiscal note prepared and furnished promptly to him (the Legislative Budget and Finance Director) according to law or that he certify to said Legislative Budget and Finance Director that no such dollar estimate can be made, stating the reason therefor as required by law.

15:1F. Whenever any fiscal note to any bill shall be forwarded by the Director of the Division of Budget and Accounting, to the Legislative Budget and Finance Director, the said director shall examine the same as to its accuracy and

(a) if he finds it to be accurate, he shall approve it, or

(b) if he finds it to be inaccurate, he shall prepare an accurate fiscal note for the bill

and he shall promptly have delivered in person or by certified mail, to the introducer whose name first appears upon the bill, a copy of the fiscal note so approved with a notice of such approval or a copy of the fiscal note prepared by him, as the case may be, with a notice that such introducer may object to such fiscal note within 5 days after the receipt of such notice.

If such introducer shall so object, the Legislative Budget and Finance Director shall, after giving consideration to such objection, determine the final form in which such fiscal note shall be certified by him and he shall certify such determination to such introducer and he shall also certify the fiscal note so approved or determined upon by him, to the Clerk of the House if such fiscal note was requested by an introducer of said bill or by said Clerk, or to the chairman of the committee or the committee to which the bill has been referred, or to the Speaker of the House, if, and according as, any one of them may have requested the same and said certificate shall be printed and distributed in the same manner as bills are printed and distributed.

15:1G. A Fiscal note shall not be required of a bill of the character described in Rule 15:1A if its effect upon State expenditures is attributable to administrative costs and expenses.

Amend Rule 15:21 by adding the words "entered upon the Journal," in the third paragraph, second line, after the word "nays," and fifth paragraph, third line, after the word "nays."

Add the following Rule after Rule 15:28 to be numbered 15A:1.

PRINTING OF BILLS, JOINT RESOLUTIONS AND CONCURRENT RESOLUTIONS

15A:1. In printing legislative bills, joint resolutions and concurrent resolutions:

a. All numbers shall be expressed in Arabic figures except where a number begins a sentence and in all dates figures shall be used even in cases in which the dates are written at length in the bill, joint resolution or concurrent resolution,

b. Material enclosed in bold-faced brackets shall be printed without change in all copies of the bills, joint resolutions and concurrent resolutions notwithstanding that by subsequent amendment part of the material so enclosed is to be included in the bill, joint resolution or concurrent resolution,

c. A footnote shall be annexed to the first page of each bill which contains material enclosed in bold-faced brackets to the following effect:

> Explanation—Matter enclosed in bold-faced brackets **[**thus**]** in the above bill is not enacted and is intended to be omitted from the law.

d. Material underlined shall be printed by substituting italics for the underlined material and omitting the underlining, and material included in italics shall be so printed,

e. Amendments to Assembly bills, joint resolutions and concurrent resolutions adopted during their progress through the House shall be printed separately only by order of the Speaker but amendments to Senate bills, joint resolutions and concurrent resolutions, so adopted, shall be printed separately and the Senate bill, joint resolution or concurrent resolution, so amended, shall not be reprinted with such amendments included therein.

f. In printing bills, joint resolutions and concurrent resolutions which have been amended, with the amendments included, all material intended to be omitted by the amendment shall be printed in the bill, joint resolution or concurrent resolution in its proper place enclosed in stars or asterisks and bold-faced brackets thus—

[thus]

and all material intended to be added by the amendment shall be printed in its proper place in italics enclosed in stars or asterisks—

thus

notwithstanding that the material to be added is part of the material enclosed in bold-faced brackets in the original bill, joint resolution or concurrent resolution or in any amendment thereof previously adopted by the House and if the bill, joint resolution or concurrent resolution is amended a second time, double stars or asterisks shall be used and additionals stars or asterisks shall be used in the same manner as successive amendments are adopted.

g. The form of amendment to be adopted by the House will remain the same as at present for use in the Journal and amendments, when printed separately, shall be printed in the form in which they are written but the above rules shall be followed in including the amendments in reprints of bills, joint resolutions or concurrent resolutions,

h. Italics shall not be used in printing any material except the material hereinbefore designated to be printed in that manner and except material occurring in the enacting or resolving clauses of any bill, joint resolution or concurrent resolution.

Mr. Hauser moved that the General Assembly adopt the resolution.

The Speaker put the question, ''Shall the General Assembly adopt the resolution?''

Upon a *viva voce* vote being taken, the Speaker declared the resolution adopted.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 29, 1963.

ASSEMBLY BILL NO. 100

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 100, with my objections, for reconsideration.

This bill, identical to Assembly Bill No. 303 of 1962, which I returned for reconsideration in that year, would amend in two respects the law which prohibits minors from entering any licensed retail liquor establishment for the purpose of purchasing or consuming any alcoholic beverage and from purchasing or consuming said beverage or misstating their age in order to do so. First it would increase the penalty on conviction from a fine ''not exceeding $50.00'' to a fine ''of not less than $100.00 and not exceeding $200.00''. Second, it would require peace officers and alcoholic beverage enforcement officers in every case to make complaints and to prosecute or assist in the prosecution of any minor who violates this statute.

The problems created by minors who violate the alcoholic beverage law have been given continued close attention by my administration. Proposals tightening the law directed at the driver who drinks are now before the Senate. A continuous campaign to have the State of New York conform its minimum age for consumption of alcoholic beverages to that of its neighbors is being waged by this administration. I approach, therefore, this legislation, as I did its 1962 counterpart, from a sympathetic viewpoint. At the time I returned the latter bill to the General Assembly I made the following statement:

> "I am in full agreement . . . with the provisions of the bill which provide for an increased fine for the violators of this law. A greater fine should help deter minors from seeking to consume alcoholic beverages in public places. The provision . . . however, which would eliminate the discretion now residing in law enforcement agencies as to the prosecution of minors, while commendable as to intent, is not likely to improve law enforcement efforts.
>
> "Apprehension of the minor who violates the alcoholic beverage law is but one part of the problem. Prosecution of those adults who willingly supply such minors with alcoholic beverages is an even more important aspect of the problem.
>
> "Our law enforcement agencies have found the minor to be an essential witness in any criminal or disciplinary prosecution of a licensee who may be charged with sale to a minor. It has also been our experience that when minors are prosecuted, the case the State may have against the licensee often cannot be proved. It is readily apparent that a minor would be inhibited from testifying against the licensee if he is also under the threat of prosecution. He could properly refuse to testify by recourse to the constitutional protection against self-incrimination. This is not to state that there are not instances where the minor should be prosecuted and punished. The decision as to the best procedure to be followed, however, should be left in the hands of our enforcement officials and not predetermined by legislative fiat. The practical experience our law enforcement officials have gained through many years of enforcing this law justifies the decision to leave to the discretion of such officials the question whether prosecution of a minor is the appropriate course to follow."

Bearing in mind the Legislature's decision to present to me for action a bill identical to the one returned by me last year, I have carefully reconsidered my views on this measure. However, I find the experience and logic which compelled me to take the action I did last year still to be valid today.

Accordingly, I am returning Assembly Bill No. 100 for reconsideration, with the recommendation that it be amended as follows:

> On page 1, title, line 7, delete '', and supplementing chapter 1 of Title 33,''.
>
> On page 2, section 2, lines 1 through 5, delete this section in its entirety.
>
> On page 2, section 3, line 1, delete the numeral ''3'' and insert in lieu thereof the numeral ''2''.

Respectfully,

[SEAL]
RICHARD J. HUGHES,
Governor.

Attest:

LAWRENCE BILDER,

Assembly Bill No. 285

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 285, with my objections, for reconsideration.

This bill was introduced to provide clearly that the statutory width limitation on commercial motor vehicles contained in R. S. 39:3–83 and 39:3–84 applies to the dimensions of the load as well as to the vehicle itself. The need for this clarification arose when the Superior Court recently ruled that the present limitation applied only to the dimensions of the vehicle itself, *State v. Patfol, Inc.,* 76 N. J. Super. 287 (App. Div. 1962) reargument denied 76 N. J. Super. 572 (App. Div. 1962). It also provides that the dimensions of the safety equipment, which are not included in measuring the width of the vehicle for the purpose of these sections, shall be regulated by the Director of Motor Vehicles. I am in complete agreement with the intent of these amendments.

After the bill was introduced, however, it was amended to permit the use of any size truck tractor where the length of the semitrailer does not exceed 40 feet in length. This would permit an exception to the present 50 foot limitation on the length on the truck tractor and semitrailer combination.

Until recently there was a 35 foot limitation on the length of semitrailers. The Legislature was persuaded to delete this so that the trucking industry could use longer semitrailers with modern shorter truck tractors and still be within the over-all 50 foot limitation. The purpose of this amendment is to permit those companies still utilizing older model truck tractors to benefit by the deletion of the 35 foot limitation on the length of semitrailers.

Although I can understand the desire of these companies to use longer trailers in order to remain in competition I cannot approve of such an unlimited exception. Pursuant to this amendment, certain tractor and semitrailer combinations could be as long as 58½ feet. I would, therefore, recommend that such a combination be permitted provided that the over-all length does not exceed 53 feet. I have been informed that such an exception would not endanger our roads or create a traffic hazard and would in most cases meet the needs of the proponents of this amendment. I also recommend that the bill be amended to clarify the right of the director to charge a fee for a special permit.

Accordingly, I am returning Assembly Bill No. 285 for reconsideration, with the recommendation that it be amended as follows:

> On page 2, section 1, line 35, after the words ''from the director.'' insert the following sentence ''The aplication for such permit shall be accompanied by a fee fixed by the director.''
>
> On page 3, section 2, line 10, after the words ''from the director.'' insert the following sentence ''The application for such permit shall be accompanied by a fee fixed by the director.''
>
> On page 4, section 2, line 50B, after the word ''length'' delete ''.'' and insert '','',.

On page 4, section 2, lines 50C and 50D, delete "Use and operation of a semitrailer which exceeds 40 feet in length is authorized".

On page 4, section 2, line 50E, delete the "50" and insert "53".

Respectfully,

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 6, 1963.

ASSEMBLY BILL NO. 344

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 344, with my objections, for reconsideration.

Assembly Bill No. 344, in part, provides that all "public records shall be readily accessible for examination by the citizens of this State, with certain exceptions, for the protection of the public interest" and further provides that such records may be copied by hand.

I am in full agreement with this aspect of the bill. Any member of the general public should have the unobstructed opportunity to review the public records that are kept and maintained by our State and local governments unless the disclosure of such documents should impair the ability of the State to operate or expose to needless scrutiny confidential information about our citizens such as that contained in tax returns and similar reports.

There is, however, an aspect of this bill that requires clarification. Assembly Bill No. 344 provides that any person can photocopy, with his own equipment, any or all of the public records of government unless the custodian shall find that there is a risk of damage or mutilation of such records in which case copies must be made and supplied to such person at the rate of $0.50 per page with a lower rate for quantity purchases. This places on the custodian the unreasonable burden of accommodating as many persons and their equipment as may wish to reproduce public records unless he can sustain a finding that such equipment constitutes a risk to such documents. In addition, it would encourage commercial enterprises to reproduce governmental material and information in wholesale quantities because of the low cost involved. Much of this data undoubtedly would have been obtained at great cost to the governmental agency involved. It is not necessary to the stated public purposes of this bill to so disregard the rights and responsibilities of governmental officials.

I have returned this bill to the Legislature today in the hope that it can be reconsidered before the spring recess. The general purpose of this legislation deserves the full support of everyone.

For this reason, I herewith return Assembly Bill No. 344 for reconsideration, with the recommendation that it be amended as follows:

> On page 2, section 2, line 16, delete ''or, if approved by the custodian, by a''.
>
> On page 2, section 2, lines 17 through 30, delete these lines in their entirety and insert in lieu thereof:
> ''and shall also have the right to purchase copies of such records. Copies of records shall be made available upon the payment of such price as shall be established by law. If a price has not been established by law for copies of any records, the custodian of such records shall make and supply copies of such records upon the payment of the following fees which shall be based upon the total number of pages or parts thereof to be purchased without regard to the number of records being copied:

First page to tenth page........	$0.50 per page,
Eleventh page to twentieth page	0.25 per page,
All pages over 20	0.10 per page,

> "If the custodian of any such records shall find that there is no risk of damage or mutilation of such records and that it would not be incompatible with the economic and efficient operation of the office and the transaction of public business therein, he may permit any citizen who is seeking to copy more than 100 pages of records to use his own photographic process, approved by the custodian, upon the payment of a reasonable fee, considering the equipment and the time involved, to be fixed by the custodian of not less than $5.00 or more than $25.00 per day."

On page 3, section 5, line 1, delete "immediately" and insert in lieu thereof "30 days following the date of approval".

Respectfully,

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 6, 1963.

ASSEMBLY BILL NO. 60

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 60, with my objections, for reconsideration.

This bill would amend the law to increase the salary of jury commissioners in fifth class counties having a population ''between 100,000 and 150,000 and in excess of 200,000.''

The present salaries of jury commissioners were fixed in 1944. Such salaries are not adequate today in light of the responsibilities placed upon the jury commissioners. Rather than increase the salaries of only a few of these commissioners, therefore, I would recommend that all the salaries be adjusted to reflect today's economic conditions.

The present formula for determining salaries is based on the classification of counties. This method has caused obvious inequities. For example, in Monmouth County, having a population of 334,401, the commissioners are paid only $500.00 per annum, while in Mercer County, having a population of 266,392, the commissioners receive $750.00 per annum. Therefore, I would further recommend that the salary categories be changed to reflect the population of the county as indicated in the latest census. The suggested categories and salaries contained herein have been approved by the Supreme Court and seem realistic in view of present conditions.

For this reason, I herewith return Assembly Bill No. 60 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, line 4, after the word "receive" insert "annual".

On page 1, section 1, lines 5 to 10, starting with the words "$900.00 per annum", delete the remainder of the sentence and insert in lieu thereof:

"In counties having 800,000 or more inhabitants, $2,000.00;

"In counties having 600,000 or more and less than 800,000 inhabitants, $1,750.00;

"In counties having 400,000 or more and less than 600,000 inhabitants, $1,500.00;

"In counties having 200,000 or more and less than 400,000 inhabitants, $1,250.00;

"In counties having 100,000 or more and less than 200,000 inhabitants, $1,000.00; and

"In counties having less than 100,000 inhabitants, $750.00."

Respectfully,

[SEAL] RICHARD J. HUGHES,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 6, 1963.

ASSEMBLY BILL NO. 291

To the General Assembly:

I herewith return Assembly Bill No. 291, without my approval, for the following reasons:

Assembly Bill No. 291 is a special bill to authorize the Borough of Belmar to lease to private interests for a period not in excess of 99 years approximately 9 acres of beach and ocean frontage upon which there could be constructed a "motel, hotel, apartment hotel, apartment building, or a restaurant building". A map of this property reveals that the entire parcel of beach from the Belmar Fishing Club to the Shark River Inlet jetty would be made available for exclusive private use. The proposed structure could extend from Ocean Avenue to the Riparian Commissioner's exterior line, a point several hundreds of feet beyond the high water line.

The officials of this municipality have sought approval for such a long term lease because the beach area in question is unsuitable for bathing. They have concluded the economic interests of their community can best be served by converting this area of unobstructed beach property to a commercial use. I certainly respect the sincere desire of these officials to see their community grow and thrive. I cannot, however, agree with their conclusion that the interests of the municipality specifically and the State in general would best be served by the destruction of such a beachfront area.

The Borough of Belmar is one of this State's many outstanding ocean front communities. At the present time, with the exception of several fishing piers, the entire beachfront of this area is available to the general public. No significant obstruction has been erected between the boardwalk, which traverses the length of the community, and that great natural asset of this State, the Atlantic Ocean. Indeed, this unobstructed view of the ocean is probably the finest asset of the community.

The value to the community and to the State of an ocean front readily available to everyone and unencumbered by intervening structures cannot be estimated, but it is high. The necessity to preserve natural areas and scenic vistas has been recognized in this State through the creation of the Natural Areas Council and the adoption of Green Acres programs.

The State in recent years has adhered to a policy of opposing any legislation which would permit the conversion of our public beaches to private use. See Veto of Senate Bill No. 207 (1957). Shore front municipalities which have sought the right to lease public lands for long term periods have been required to preserve the beachfront areas for the use of the general public. C. 115, P. L. 1960; C. 12, P. L. 1963. I believe this to be a wise policy.

If the local officials can devise plans which would permit the use of a portion of the property in question while still preserving the public's right of access to the Ocean, I would give such plans full consideration. The authorization set forth in Assembly Bill No. 291, however, is much too broad.

Respectfully,

[SEAL] RICHARD J. HUGHES,
Governor.

Acting Secretary to the Governor.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 6, 1963.

ASSEMBLY BILL NO. 289

To the General Assembly:

I herewith return Assembly Bill No. 289, without my approval, for the following reasons:

This bill would amend the 1941 statute commonly referred to as the Rabies Control Act, which provides for the canvassing, registration and control of dogs, to delete any specific reference to the "chief of police of each municipality, or the chairman of the police committee thereof" as the person to whom the responsibility for conducting the annual canvass of dogs and other dog control procedures shall be assigned. It would provide that such responsibilities shall be assigned to "any person appointed for the purpose by the governing body of the municipality."

Initially, it should be noted that the present law does authorize the governing body of a municipality to appoint, in preference to the named police officials, any other person such a body may prefer. To this extent, the bill serves no useful purpose whatsoever. By deleting all reference to police officials, however, the bill apparently seeks to encourage the vesting of responsibilities with persons other than our law enforcement officials. I cannot conclude this would be a desirable result.

The State Department of Health has informed me that the law enforcement agencies in this State are now best equipped, empowered and trained to handle the canvassing, registration and control requirements of the Rabies Control Act. The present system has worked so satisfactorily that there have been no reported rabies cases in humans in this State for more than 10 years. This record certainly justifies continuation of the responsibility for rabies control in the hands of law enforcement officials. This is especially true since any municipality which has available to it trained personnel better equipped to carry out this program than law enforcement officials now can assign such persons the responsibility for administering its local program.

Respectfully,

[SEAL] RICHARD J. HUGHES,
Attest: *Governor.*

LAWRENCE BILDER,
Acting Secretary to the Governor.

Mr. Crabiel moved that the communication be received and filed.

Which motion was adopted.

Messrs. Sarcone, Crabiel and Matthews offered the following resolution which was read by the Clerk and adopted:

Whereas, Negroes in Birmingham, Alabama, have been denied civil rights over a long period of time, whereas their efforts at peaceful protest have been met with degrading forms of repression, and whereas the tensions generated by repeated incidents have finally culminated in explosive violence; and

Whereas, Incalculable harm has been caused to American prestige throughout the world because, in the words of Oliver Wendell Holmes, "they cannot hear what we are saying because the things we are doing keep ringing in their ears"; and

Whereas, The white segregationists believe their actions will be condoned by those in authority in Birmingham and the State of Alabama who have failed to stand up for law and order; and

Whereas, The overwhelming majority of American citizens believe that there must be an orderly beginning to the adjustment of a 300-year-old grievance of oppression and human degradation; and

Whereas, We in New Jersey recognize our own shortcomings, although we have made some progress in eliminating discrimination in employment, public accommodations and schools—and are still seeking to close the gap in housing discrimination; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey that:

We support the steps taken by the President of the United States and call upon the Governor of Alabama and the Mayor of Birmingham and all State and local officials to support publicly in the fullest measure the accord reached by an interracial group of negotiators and thus lend the weight of their offices to the reduction of hostility and hatred and to the development of decent human relations which are the cornerstone of democracy.

Messrs. McGowan, Keegan, Policastro, Miller, Farrington, Panaro, Bigley and Yost offered the following resolution which was read by the Clerk and adopted:

Whereas, The State Constitution and the rules of the Senate and General Assembly require the holding of a public hearing on any proposals to amend the State Constitution; and

Whereas, The Legislature should provide at least the same deliberation upon proposals relating to amendments proposed to the United States Constitution; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

1. The Rules of the General Assembly be amended by the addition of a rule as follows:

> No resolution originating in the General Assembly proposing concurrence upon an amendment to the United States Constitution or memorializing the Congress of the United States to take action in connection with a proposal to amend the United States Constitution shall be calendered for action in the General Assembly until a public hearing upon such resolution shall have been held by the General Assembly or a Committee thereof, when and as shall be ordered by the General Assembly.

Be It Further Resolved, That authenticated copies of this resolution be forwarded to the President of the New Jersey Senate requesting the Senate to amend its rules to require public hearings in similar circumstances of resolutions originating in the Senate relating to amendments to the United States Constitution.

Messrs. Keegan, Biber, Wegner, Mrs. Kordja, Messrs. Maraziti, Sears and Rutherfurd offered the following resolution which was read by the Clerk and adopted:

Whereas, The Most Reverend James Johnston Navagh has been designated the spiritual leader of the diocese of Paterson; and

Whereas, The populace of Passaic, Morris and Sussex Counties join in a special way with the over 250,000 citizens of these counties of the Roman Catholic faith in welcoming Bishop Navagh; and

Whereas, All citizens of good will in the said three counties extend to Bishop Navagh their wishes for a successful and happy rule in their midst, now, therefore

Be It Resolved, That the General Assembly of the State of New Jersey formally welcome him to the State and wish him every success in his endeavors; and

Be It Further Resolved, That a copy of this resolution signed by the Speaker of the General Assembly and attested by the Clerk of the General Assembly be forwarded to Bishop Navagh.

Messrs. Brady and Musto offered the following resolution which was read by the Clerk and adopted:

Whereas, There is to be held today in Jersey City the Twenty-fifth Hospital Anniversary and Dedication Exercises of the Frank Bortone Surgical Pavilion of the B. S. Pollak Hospital for Chest Diseases; and

Whereas, In connection with these ceremonies, Doctor Frank Bortone is to be most deservedly honored; and

Whereas, This body takes this opportunity of wholeheartedly joining in the congratulations to Doctor Bortone in having this fine surgical pavilion named for him; and

Whereas, For upwards of fifty years Doctor Bortone has devoted his efforts, skill and love to his chosen profession, specializing in surgery; and

Whereas, Doctor Bortone has long been identified with leading hospitals as a surgeon and consultant and has been a professor of surgery at Seton Hall College of Medicine; and

Whereas, Doctor Bortone is a fellow of the American College of Surgeons and a member of all of the important medical and surgical societies of the country; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

That congratulations are extended to Doctor Frank Bortone on the occasion of the Dedication of the Frank Bortone Surgical Pavilion of the B. S. Pollak Hospital for Chest Diseases in Jersey City, and the General Assembly also expresses to Doctor Bortone its best wishes for a long continuance of good health and of many more years of distinguished service in his profession; and

Be It Further Resolved, That this resolution be spread upon the Minutes of the General Assembly and that a copy signed by the Speaker of the General Assembly and attested by the Clerk of the General Assembly be forwarded to Doctor Frank Bortone.

ASSEMBLY BILL NO. 311

To the General Assembly:

I herewith return Assembly Bill No. 311, without my approval, for the following reasons:

Assembly Bill No. 311 would authorize the appointment of a special administrator to receive process in litigation against the estate of a resident motorist who became nonresident after his involvement in an accident on the highways of this State and thereafter died.

Together with a companion bill, Assembly Bill No. 307, this legislation was inspired by the case of *In re Estate of Gardinier,* 74 N. J. Super. 217 (App. Div. 1962), where the Court discerned an implicit legislative policy of excluding the estates of such deceased motorists from liability to substituted service. The policy was inferred from a comparison between two closely related sections of the Motor Vehicle Act. It was pointed out that R. S. 39:7–2 authorizes substituted service upon the personal representative of a deceased nonresident motorist by serving the Director of the Division of Motor Vehicles, while N. J. S. A. 39:7–2.1 contains no comparable provision for substituted service upon the representative of a resident motorist who died nonresident after the accident. The silence of the latter section in this respect led the Court to conclude that the Legislature intended to restrict the scope of *in personam* jurisdiction to situations concerning deceased motorists who were nonresident at the time of the accident.

On June 3, 1963, after the passage of Assembly Bills Nos. 307 and 311, the Supreme Court reversed the judgment of the Appellate Division, holding that the legislative silence did not bespeak the positive policy determination found by that Court. 40 *N. J.* 216. The action of the Court, however, did not completely obviate the need for legislation to cure the unwarranted discrepancy between these two classes of deceased motorists. The ultimate result of *Gardinier* was only to permit administration under N. J. S. 3A:6–10, which requires the existence within the State of "property" of the decedent. Thus as the law now stands, the estate of a deceased nonresident motorist can be reached in all events by substituted service under R. S. 39:7–2, while the estate of a resident motorist who died nonresident remains beyond reach unless there are assets here. I thoroughly agree that there should be no distinction in this area based upon "the irrelevant fact that one deceased was a resident at the time of the mishap while the other was not." *In re Estate of Gardinier, supra* (40 N. J. at 267).

For this reason, I have today signed Assembly Bill No. 307, which rectifies this situation by authorizing substituted service through the Director of the Division of Motor Vehicles in the case of a resident motorist who died nonresident, in the same manner now provided for substituted service upon the personal representative of a deceased nonresident motorist. Having done so, I see no necessity for the enactment of Assembly Bill No. 311, which is intended to provide the same remedy through the more cumbersome device of securing court appointment of a special administrator. It has not been suggested that special administration is required where the deceased motorist did not reside in the State at the time of the accident. To authorize such administration in a case where the decedent was a resident when the accident happened would only perpetuate the meaningless distinction which Assembly Bill No. 311, according to its statement, is intended to eliminate.

Accordingly, I am returning Assembly Bill No. 311 without my approval.

Respectfully,

[SEAL] RICHARD J. HUGHES,
Governor.

Acting Secretary to the Governor.

ASSEMBLY BILL NO. 214

To the General Assembly:

I herewith return Assembly Bill No. 214, without my approval, for the following reasons:

This bill would increase to "not less than $300.00 nor more than $1,000.00" the present compensation range for members of municipal councils in municipalities having less than 5,000 inhabitants which are located in counties of the first class. According to the statement it carries, this is the only change contemplated and made by the bill.

I have no fundamental disagreement with this purpose. The compensation range which would here be raised was established sometime ago and revision seems appropriate to reflect current standards and circumstances. In point of fact, I approved last year another amendment of this same section which increased the salary range for certain other municipal councilmen.

It appears, however, that the draftsmen made an error in preparing this legislation. As now written, the bill might well be interpreted as eliminating the present statutory ranges for all municipalities having populations in excess of 5,000 inhabitants which are located in counties of the first class.

Since there is no way to determine whether this elimination was approved by the Legislature with some particular design in mind, I feel obliged to return this bill without my approval for further consideration.

In the preparation of any future legislation in this area, I would also suggest that a complete review of all salary ranges specified in the section be undertaken. Such further revision as is needed might then be made at one time in a consistent, instead of piecemeal, manner.

Respectfully,

[SEAL] RICHARD J. HUGHES,
Governor.

ASSEMBLY BILL NO. 211

To the General Assembly:

I herewith return Assembly Bill No. 211, without my approval, for the following reasons:

This bill permits veteran members of the Public Employees' Retirement System to purchase prior service credit for such time as the member was engaged in "creditable public service or military service."

Under the present law, veteran members receive free credit for time spent in military service provided the member was in public service in this State prior to such service. Veteran members also receive free credit for all public employment within this State prior to joining the pension system. This bill raises the question whether the veteran members are now to be permitted to buy credit for such public service as to which they have already received free credit.

Also ambiguous is what is meant by the term "creditable public service." No attempt at definition of this term is made in the bill. Is is to be limited to public service within this State, or does it also include service for any public body —whether other state, federal or perhaps even foreign? It the term is used in its broadest sense, it will extend a privilege to former public servants from outside this State which, in the vast majority of cases, is not extended to our employees who may seek further public employment outside of New Jersey.

In addition, the bill places no limit on the amount of service credit which can be purchased. Thus, it would permit a veteran member, having a minimum amount of service in this State, to retire on a State-supported pension based almost entirely on public service credits earned elsewhere. In point of fact, there is nothing in the bill to prohibit such an individual, already receiving a pension from another public body, from buying service credit in the Public Employees' Retirement System for the time on which that pension is based, with contributions by his current employer, so that he might thereafter receive two pensions.

The bill also involves significant cost factors. It provides that the purchase price for such prior service credit shall be based on the employee's current salary, leaving to the present or future employer the further financial burden that will undoubtedly result from the fact that the amount of pension to be paid will be based on salary at the time of retirement. In addition, it places liability for the employer's share of the cost of such prior service credit on the present employer. The extent of this potential liability cannot be effectively estimated, however it is clear the bill would be costly. The imposition of this financial burden is in conflict with the traditional purpose of employer contributions to the pension system, for these are intended as a form of additional compensation to public servants in recognition of long and faithful service to this State.

If the Legislature now intends to embark upon a new course involving recognition of and reward for public service rendered elsewhere, it should do so only after full and careful consideration of the questions here raised.

Respectfully,

[SEAL] RICHARD J. HUGHES,
Attest: *Governor.*

Assembly Bill No. 464

To the General Assembly:

I herewith return Assembly Bill No. 464, without my approval, for the following reasons:

This bill would broaden the definition of "veteran" which is contained in the Teachers' Pension and Annuity Fund—Social Security Integration Act (P. L. 1955, c. 37) by extending the terminal date for World War II service to December 31, 1946. At present, veteran status and the special treatment accruing therefrom is limited in both the Teachers' Fund and the Public Employees' Retirement System to persons with at least 90 days active service in the Armed Forces of the United States, between September 16, 1940 and September 2, 1945, or of her allies, between September 1, 1939 and September 2, 1945.

It has been estimated that some 300 members of the Teachers' Fund would derive veteran status from enactment of this legislation. As such, they would be entitled to the immediate return of all contributions made to the pension fund prior to January 1, 1955 and would, in addition, benefit from the advantageous computation of retirement allowances for veterans. The bill provides for funding, by the State and the employing school boards, of the liability created by this veterans credit over the remaining period of the 30-year amortization of the liability established in 1957. Previous bills for this purpose have carried statements indicating an estimated cost to the taxpayers, at one level of government or another, of $140,000.00 a year, or $4.2 million in total, in the form of public contributions to the teachers' pension system.

Similar legislation was disapproved by my predecessor on two different occasions. I find the reasons advanced by Governor Meyner in his veto messages relative to Assembly Bill No. 231 of 1957 and Assembly Bill No. 169 of 1961 equally compelling today.

Additionally, it must be noted that the Legislature only recently (Laws 1963, Ch. 120) restricted the definition of veteran by imposing a cut-off date of July 27, 1953 with respect to qualifying service during the Korean emergency. In view of this, extension of the terminal date for World War II service does not appear appropriate or consistent. For nearly 20 years, the Teachers' Fund and the Public Employees' Retirement System, as well as Civil Service preferences (R. S. 11:27–1) and local tax exemption provisions (P. L. 1951, c. 184), have been operated effectively by reference to a cut-off date of September 2, 1945. There appears to be no compelling reason why there must or should be an extension of this period at this late date.

For these reasons, I am returning Assembly Bill No. 464 without my approval.

Respectfully,

[SEAL] RICHARD J. HUGHES,
Governor.

ASSEMBLY BILL NO. 375

To the General Assembly:

I herewith return Assembly Bill No. 375, without my approval, for the following reasons:

This bill would authorize judges of the Juvenile and Domestic Relations Court, at their discretion, to hold to bail juveniles charged with juvenile delinquency offenses.

The Legislature, at the time it established the Juvenile and Domestic Relations Court, felt it was important to clearly set out its intent as follows:

> "It is hereby declared to be a principle governing the law of this state that children under the jurisdiction

> of said court are wards of the state, subject to the discipline and entitled to the protection of the state, which may intervene to safeguard them from neglect or injury and to enforce the legal obligations due to them and from them.'' N. J. S. 2A:4–2.

Since its conception, this Court has striven to correct and rehabilitate youthful offenders rather than to exact retribution. In the case of *In Re E1.* 26 N. J. Misc. 285, 288 (Cty. Ct. of Qu. Sess. 1948), the Court ably summarized this Court's duty as ''the protection of pliant youth against demoralizing reproach as a consequence of infraction. Its major care is for the quality of the judicial and corrective environment in which youth is to be placed when its delinquency necessitates the public processes of inquiry and discipline.''

Therefore, the procedure established for this Court is one in which the juvenile delinquent is not treated as a criminal but rather as a ''ward of the state.''

The effect of this bill would be to introduce for the first time the concept of ''bail'' in cases dealing with youthful offenders. There is little doubt that bail is so associated with crime and criminal procedure, and so foreign to the *parens patriae* philosophy of the juvenile and domestic relations court law, as to defeat at least in part the objectives sought in establishment of a separate court to handle juvenile offenders.

The decision whether to hold a child in detention or to release him should not depend on the availability of a bail bond. It should depend on the consideration of such factors as whether proper care, control or supervision would be afforded the child if released to his parents pending hearing, whether there is a strong likelihood of the child running away or committing an offense dangerous to himself or the community pending hearing, and whether psychiatric or other studies are required pending hearing for the best interests of the child.

Moreover, I have seen no evidence to substantiate a need for this type of legislation. Under the present law, the judge of the Juvenile and Domestic Relations Court is authorized at his discretion to release a juvenile to the ''custody of a parent, guardian or custodian, or of a probation officer or other person appointed by the court,'' N. J. S.

2A:4-32. Furthermore, the officer who takes a youthful offender under the age of sixteen into custody shall, unless impractical or otherwise ordered by the Juvenile and Domestic Relations Court, release the child upon the promise of the parent, guardian or custodian to be responsible for the appearance of the child in Court at the time fixed, *Id.*

It is my opinion that not only is the present procedure adequate but in fact preferable to that which would be established by this bill. Presently, the judge, in determining whether the youthful offender is to be released, can take into consideration the needs of the juvenile as well as the competency of the person who will receive custody. The use of the bail procedure, on the other hand, would result in the question of release being partly dependent upon the financial ability to post bail.

Respectfully,

[SEAL] RICHARD J. HUGHES,
Governor.

LAWRENCE BILDER,
Acting Secretary to the Governor.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
December 9, 1963.

ASSEMBLY BILL NO. 165

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the Constitution I herewith return Assembly Bill No. 165, with my objections, for reconsideration:

This bill would require a municipality to refund to the holder of a tax sale certificate any amount he paid which is "in excess of the amount paid for the redemption of the property", provided such redemption takes place within five years from the date of the sale of the tax certificate.

The absence of adequate statutory guide lines governing, at the time of redemption, the rights of a tax sale certificate holder who has paid more than the amount required to redeem was pointed out by the Supreme Court in the case of *Dvorkin v. Dover Township,* 29 N. J. 303 (1959). The present statutory provision relates only to the right of the holder of the tax certificate who has paid less for his assignment than the amount required to redeem, where redemption occurs during an action to bar the right of redemption. In such case the holder is entitled to receive, out of the money paid for the redemption, only the amount he actually paid to the municipality with interest thereon. He is prevented from reaping a profit. N. J. S. A. 54:5–114.8. The law is silent, however, as to what should be done where the amount paid by the redeemer during the suit is less than the amount paid for the tax certificate and as to the holder's right where redemption occurs before the institution of an action to bar the right of redemption.

In the *Dvorkin* case the Supreme Court, at page 314, interpreted the law as requiring that "the bidder be made whole in event of redemption. A contrary conclusion results in a forfeiture . . ." The passage of this bill clearly indicates the Legislature's concurrence with the Supreme Court's interpretation and with the desirability of setting to rest any doubts that may still exist.

While the amendment now proposed in this bill, if read together with N. J. S. A. 54:5–114.8, might be said to embody the sense of the *Dvorkin* decision, the effect of the supplementary language contained in section 2 is to negate that decision insofar as all outstanding tax sale certificates are concerned. Furthermore, the approach suggested in the bill would not only leave in doubt, but might well considerably complicate, the situation of any holder of a tax certificate where redemption occurs before an action is instituted to bar the right of redemption. The bill would simply require the municipality to pay over to such holder any amount he paid "in excess of the amount paid for the redemption of the property". It does not, nor does any other statute, specify that under such circumstances a holder is entitled to receive the full amount paid for the tax certificate.

I suggest, therefore, that the bill be amended to clearly spell out the requirement that, in any of such situations, the municipality shall return to the holder the full amount paid for the tax certificate. Similarly, it should be made clear that the amendment here contemplated is not intended to affect the case now covered by N. J. S. A. 54:5–114.9 where, after the sale of the tax certificate, the holder buys out the interest of the person having legal title to the property. As the Supreme Court stated in the *Dvorkin* case, this provision is "necessary in order to prevent the municipality from being defrauded . . ." id at 318.

Accordingly, I am returning Assembly Bill No. 165 for reconsideration, with the recommendation that the bill be amended as follows:

On page 1, Title, line 1, after the words "An Act to amend" delete "and supplement".

On page 1, section 1, line 7, insert before the word "Upon" the following: "Except as provided for by section 1 of chapter 45, P. L. 1950,".

On page 1, section 1, line 7, delete "Upon" and insert in lieu thereof, "upon".

On page 1, section 1, line 7, before the word "amount" insert the word "full".

On page 1, section 1, line 7, after the word "amount" delete ",".

On page 1, section 1, line 8, delete "if any,".

On page 1, section 1, lines 10 and 11, delete "in excess of the amount paid for the redemption of the property,".

On page 1, section 2, lines 1 to 4, delete this section in its entirety.

On page 1, section 3, line 1, delete this line in its entirety and insert in lieu thereof "2. This act shall take effect immediately."

Respectfully,

[SEAL] RICHARD J. HUGHES,
Attest: *Governor.*

Messrs. Matthews, Crabiel and Sarcone, and all the members offered the following resolution, which was read by the Clerk and adopted:

Whereas, A crime not only against America but against all mankind has taken from this nation its leader, John Fitzgerald Kennedy, and

Whereas, During his too short tenure in office President Kennedy infused new vigor into the traditional American concept of government dedicated to freedom and the opportunity for a productive life for all people; and

Whereas, President Kennedy proved himself a steward of greatness in his maintenance and enhancement of America's leadership of the Free World; and

Whereas, Further testimony of President Kennedy's wisdom is given in his selection of Lyndon B. Johnson for the Vice-Presidency resulting in today's unfaltering transition of national leadership that has strengthened the faith of the world in the American system of government; now, therefore,

Be It Resolved, That the General Assembly hereby express not alone its grief in the passing of our beloved President, John Fitzgerald Kennedy, but its admiration for the added dimensions of greatness which he brought to American leadership and to express to President Lyndon B. Johnson its firm support and hopes for success as he shoulders the new burdens which he is so magnificently equipped to bear.

Mr. Keith offered the following resolution, which was read by the Clerk and adopted:

An Assembly Resolution commemorating the Bar Mitzvah Anniversary of the Hillel School of the Shore Area, Monmouth County.

Whereas, The Hillel School of the Shore Area, Monmouth County, was founded in 1950, through the untiring efforts and devotion of individuals, such as Rabbi Morris A. Shmidman, who has been the Dean of the school since its founding; and

Whereas, The Hillel School provides secular and religious education for children from the nursery class to the eighth grade; and

Whereas, Since its inception, the Hillel School has sought to instill in its pupils an awareness of, and dedication to, the American culture and Jewish heritage, as one of its principal goals; and

Whereas, There is no nobler and more worthwhile endeavor than the education of our young people; and

Whereas, The teachings and efforts of all persons associated with the Hillel School of the Shore Area have had a profound impact upon the residents of Monmouth County and the State of New Jersey for the betterment of our society; and

Whereas, The Hillel School of the Shore Area is celebrating the thirteenth year of its founding, its Bar Mitzvah Anniversary; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

That the General Assembly hereby commemorates the thirteenth anniversary of the Hillel School of the Shore Area, does extend its congratulations to the school on the occasion of its Bar Mitzvah Anniversary and offers its sincere wishes for the continued success of the school, its teachers and associates in their endeavors; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker of the General Assembly and properly attested by the Clerk of the General Assembly be forwarded to Rabbi Morris A. Shmidman, Dean.

Messrs. Brady, Hauser, Kijewski, Bressler, Musto and McCurrie offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, Former Assemblyman Joseph Topoleski of Bayonne, died recently; and

WHEREAS, Mr. Topoleski served as a member of the General Assembly in 1934 and 1935; and

WHEREAS, Mr. Topoleski was Director of the Bayonne Parks Department from 1939 to 1943, and belonged to the Bayonne Housing Authority during the 1930's; and

WHEREAS, At the time of his death, Mr. Topoleski was serving as Home Secretary to Congressman Cornelius Gallagher; and

WHEREAS, Mr. Topoleski served in the Army during World War I, and was long active in Polish-American circles; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

1. That public tribute is hereby given to the memory of former Assemblyman Joseph Topoleski for his many and important public services and sympathy and condolences are hereby extended to his family.

And Be It Further Resolved:

2. That this resolution be spread upon the Minutes of the General Assembly and that a copy signed by the Speaker and attested by the Clerk of the General Assembly be forwarded to the family of the late Joseph Topoleski.

Messrs. Brady, Hauser, Kijewski, Bressler, Musto, and McCurrie offered the following resolution which was read by the Clerk and adopted:

WHEREAS, Former Judge Robert Carey of Hudson County died on October 7, 1963, and

WHEREAS, Judge Carey was one of the few surviving elder statesmen who served the State well and faithfully during the early part of this century; and

WHEREAS, Judge Carey had a long and distinguished career which included his judgeship in the Hudson County Court of Common Pleas, his being a delegate to the New Jersey Constitutional Convention in 1947 and his services on many important State boards and commissions; and

WHEREAS, For many years Judge Carey was an outstanding member of the Bar of this State and an important figure in political, public and professional circles; and

Whereas, This body desires to pay tribute to Judge Carey and extend sympathy and condolences to his family; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

1. That public tribute is hereby given to the memory of the late Judge Robert Carey in recognition of his many important public services to the State and to his County of Hudson and this body extends its sympathy and condolences to the family of Judge Carey; and

Be It Further Resolved, That this resolution be spread upon the Minutes of the General Assembly and that a copy signed by the Speaker and attested by the Clerk be forwarded to the family of the late Judge Robert Carey.

Messrs. Brady, Hauser, Musto, Kijewski, Bressler, and McCurrie offered the following resolution which was read by the Clerk and adopted:

Whereas, Former Assemblyman Frank Guarini, Sr., of Jersey City, died recently; and

Whereas, Mr. Guarini served as a member of the General Assembly from 1929 to 1931; and

Whereas, Mr. Guarini served as an Assistant Corporation Counsel for Jersey City under both Mayors Frank Hague and John D. Kenny; and

Whereas, Mr. Guarini had been active in athletic circles and fraternal organizations and during World War I he was a First Lieutenant in the Army; and

Whereas, Mr. Guarini was particularly noted for his devotion to the memory of President Abraham Lincoln; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

1. That public tribute is hereby given to the memory of former Assemblyman Frank Guarini, Sr., for his many and important public services and sympathy and condolences are hereby extended to his family; and

Be It Further Resolved:

2. That this resolution be spread upon the Minutes of the General Assembly and that a copy signed by the Speaker

and attested by the Clerk of the General Assembly be forwarded to the family of the late Frank Guarini, Sr.

WHEREAS, Benjamin Stevens of Vineland, New Jersey died on December 5, 1963; and

WHEREAS, Mr. Stevens was born in the City of Vineland in 1883; and

WHEREAS, Mr. Stevens was a distinguished member of his chosen profession of law, a member of the New Jersey Bar Association and a member of the Cumberland County Bar Association; and

WHEREAS, Mr. Stevens, at the age of 29, became the youngest Mayor in Vineland's history and continued to devote much of his time, talent and energies over the span of 50 years to elected and appointed governmental services on the federal, county and municipal levels; and

WHEREAS, The memory of this outstanding and distinguished public servant will long be remembered and it is particularly fitting that this body should record its regrets upon his passing; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey, that public expression is hereby given to the esteem in which the late Benjamin Stevens has been held and appreciation is expressed for his countless and valuable services to the citizens of Cumberland County and particularly the City of Vineland; and

Be It Further Resolved, That sincere condolences and sympathy are hereby extended to Mrs. Stevens, his widow; and

Be It Further Resolved, That this resolution be spread upon the Minutes of the General Assembly and a copy signed by the Speaker of the General Assembly and attested by its Clerk be forwarded to Mrs. Stevens.

Mr. Kay offered the following resolution which was read by the Clerk and adopted:

WHEREAS, By proclamation, Mayor Ralph James of the City of Wildwood did set aside and memorialize December 3, 1963 as the first annual Juvenile Decency Day; and

WHEREAS, A full day program to recognize the good work and deeds of the young people of Wildwood and focus attention on the great potential of youth by working hand in hand with the adult citizens of the community in a common effort to enhance the opportunities of youth; now, therefore,

Be It Resolved, That the General Assembly commend and congratulate the citizens of the City of Wildwood for honoring the youth of their community by the celebration of Juvenile Decency Day and thereby placing emphasis upon the many fine youth of our entire State.

Mr. Sarcone offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, December 11th marks the 50th birthday of our esteemed colleague, J. Arnold Bressler; and

WHEREAS, Our friend, Assemblyman J. Arnold Bressler, has endeared himself to each and all of us, by reason of his genuinely friendly manifestations; and

WHEREAS, We rejoice that our friend, J. Arnold Bressler has returned to our midst after a prolonged period of convalescence, subsequent to his unfortunate accident; and

WHEREAS, We are happy to know that our friend, J. Arnold Bressler, by reason of his re-election, God willing, will continue his legislative career as an Assemblyman, representing Hudson County; and

WHEREAS, We recognize in the person of J. Arnold Bressler those characteristics and attributes which distinguish a gentleman and a scholar; now, therefore,

Be It Resolved, That we do hereby extend our sincere congratulations and good wishes to our friend and associate, J. Arnold Bressler on this, his 50th birthday anniversary; and

Be It Further Resolved, That a copy of this resolution signed by the Speaker of the General Assembly and attested by the Clerk of the General Assembly, be forwarded forthwith to our colleague, J. Arnold Bressler.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 14, 1964

ASSEMBLY BILL NO. 162

To the General Assembly:

Pursuant to Article V, section 14(b) of the Constitution, I herewith return Assembly Bill No. 162, with my objections, for reconsideration.

Assembly Bill No. 162 would provide that where a motor vehicle is registered in the names of two married persons as husband and wife, title shall be presumed to vest in both with right of survivorship, for purposes of effectuating the transfer of record ownership to the survivor without the necessity of presenting evidence of administration of the predecedent's estate.

While I have no objection to facilitating the procedure for obtaining a revised certificate of ownership or registration certificate for a motor vehicle by a surviving spouse in cases of joint ownership, this bill, as drafted, presents certain technical problems. The references to the certificates in question do not conform with the terminology used throughout the Motor Vehicle Act and should be corrected. In addition, the title of this act should be more specific in its reference to the section of Title 39 which it is intended to supplement.

I am accordingly returning Assembly Bill No. 162 for reconsideration, with the recommendation that it be amended as follows:

> On page 1, Title, line 1, delete "AN ACT concerning motor vehicles." and insert in lieu thereof "An act concerning title to certain motor vehicles, and supplementing chapter 3 of Title 39 of the Revised Statutes."
>
> On page 1, section 1, line 1, delete "title to" and insert in lieu thereof "that".
>
> On page 1, section 1, line 3, delete "such registration" and insert in lieu thereof "the registration certificate".
>
> On page 1, section 1, line 4, delete "title", and insert in lieu thereof "certificate of ownership".
>
> On page 1, section 1, line 5, after "registration", insert "certificate".

Respectfully,

[SEAL] RICHARD J. HUGHES,
Governor.

Attest:

LAWRENCE BILDER,
Acting Secretary to the Governor.

Mr. Keegan offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, It has pleased Almighty God in His infinite wisdom to call from this earth Jacob De Lazier; and

WHEREAS, Mr. De Lazier was a former member of the New Jersey General Assembly; and

Whereas, Mr. De Lazier was the oldest living Assemblyman, having served this House in the year 1904; now, therefore,

Be It Resolved, That the Members of the General Assembly express their regret at his passing and extend to his family their deep sympathy; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk of the General Assembly, be forwarded to the family of the late Jacob De Lazier.

Mr. Sarcone offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the thanks of the members of the General Assembly be and hereby are extended to the Honorable J. Edward Crabiel of Middlesex County, leader of the Democratic representation in the General Assembly, for the capable manner in which he has assisted in the transaction of the important matters which have come before this body for action. While the sentiment of this resolution is fully endorsed and approved by the entire membership, the Republican leader especially wishes to record his appreciation of the fairness and consideration shown the Minority by Mr. Crabiel.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Honorable C. Robert Sarcone of Essex County, Leader of the Republican representation in the General Assembly, be extended the thanks of the General Assembly for the able manner in which he has fulfilled the exacting duties representing his party, while at the same time cooperating with the majority in the enactment of the important measures that have come before the General Assembly.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the thanks of the General Assembly be extended to John Pecoraro, Secretary to the Majority Leader, and to Francis R. Ciancaglini, Secretary to the Minority Leader, for the faithful manner in which they have attended to the requests of the members of the General Assembly during this session.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the members of the General Assembly express their appreciation of the uniformly kind treatment received at the hands of Adrian I. Karp, Secretary to the Speaker, and Earl F. Rhodes, Assistant Secretary to the Speaker, and to Howard Cubberly, Warren Storjohann, Harry Silverman, Daniel A. Schaal, Nicholas J. Conti and John A. Kelly, Clerks to the Speaker.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the thanks of the General Assembly be and they hereby are extended to Ernest T. Scheidemann, Clerk, and to Frank T. Cuchie, Assistant Clerk; Harvey Stern, Parliamentarian; Richard Kessler and Stanley Mann, Assistant Parliamentarians; Ambrose J. Hinnegan, Counsel to Assembly Committees; George F. Cushing, Calendar Clerk; Lewis B. Finch, Jr., Assistant Calendar Clerk; Mrs. Mary E. Weber, Journal Clerk; Mrs. Cecelia Durkin, Mrs. Stella Harding, Mrs. Anne J. DiRenza, Walter Grabler and William Ewing, Assistant Sergeants-at-Arms; John Kuren, Bill Clerk; Mrs. Lucille Belfi, Mrs. Sara Baker, Edward Seyler and Irving Opack, Assistant Bill Clerks; Reverend Burton B. Bosworth, Chaplain; for the efficient and faithful manner in which they have attended to the duties of their offices in the General Assembly.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the thanks of the General Assembly be extended to the Postmaster of the State House and his assistants for the efficient and courteous manner in which they have handled the mail for the members throughout the session.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Speaker of the General Assembly and the members of the 1963 Session hereby extend their sincere thanks to Harry S. Walsh, Superintendent of Capitol Buildings, and to Don M. Blauth, Assistant Superintendent of Capitol Buildings, for the many courtesies and for the able assistance they have rendered to the members during the session.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the thanks of the General Assembly be extended to the members of the State House staff who have willingly and capably assisted the officers, employees and members of the General Assembly in the performance of their duties.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the members of the General Assembly extend their sincere thanks and appreciation to the members of the State Police for their willingness and cooperation in escorting the many classes of school children who have visited the General Assembly this year and for their intelligent and informative tours of the State Capitol Buildings extended to these classes.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the thanks and appreciation of the General Assembly be extended to Mrs. Salome Simmons, Mrs. Jean Hunziker, Mrs. Eleanor Tombros, Mr. Harold Cass and Mr. Philip Muller, Pages, for the efforts put forth by them in their respective positions.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the members of the General Assembly at this time express to the MacCrellish and Quigley Company, the New Jersey Legislative printers, their most sincere appreciation for the high degree of efficient service in handling the diversified and detailed printed matters of the General Assembly.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the thanks of the General Assembly be extended to the New Jersey Legislative News for the service rendered through the New Jersey Legislative News service and the careful preparation of the information contained therein.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the thanks of the General Assembly be extended to the Legislative Index of New Jersey for the service rendered through the Legislative Index and for the careful preparation of the information contained therein.

Mr. Crabiel offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That a committee of three be appointed by the Speaker forthwith to wait upon His Excellency, the Governor, and inform him that the One Hundred and Eighty-seventh Session of the Legislature has completed its labors and is about to adjourn *sine die,* and to inquire if the Executive has any further communications to make to this body.

The Speaker made the following appointments: Messrs. Crabiel, Davis, Bateman.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 14, 1964.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following bill:

Senate Bill No. 74, entitled "An act to amend the title of 'An act concerning counties and authorizing the board of chosen freeholders of any county to permit the use of space or rooms, together with furniture and equipment, in buildings owned or maintained by the county, by a county mental health association incorporated under the laws of this State, or by any private charity or organization in the county providing aid and assistance for the mentally retarded, with or without the payment of rent and to supply them with the services of county employees, supplementing Title 40 of the Revised Statutes,' approved June 26, 1958

(P. L. 1958, c. 87), as said title was amended by chapter 185 of the laws of 1960, so that the same shall read 'An act concerning counties and authorizing the board of chosen freeholders of any county to permit [the use of space or rooms, together with furniture and equipment, in buildings owned or maintained by the county, by a county mental health association incorporated under the laws of this State, or by certain other organizations providing aid or assistance to mentally *retarded or mentally* ill children, with or without the payment of rent and to supply them with the services] *certain organizations providing aid or assistance to mentally retarded or mentally ill persons to use county facilities and to supply them with the services* of county employees, and supplementing Title 40 of the Revised Statutes,' and to amend the body of said act,"

As amended, pursuant to the recommendations of the Governor.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

The Senate message was then taken up, and

Senate Bill No. 74, entitled "An act to amend the title of 'An act concerning counties and authorizing the board of chosen freeholders of any county to permit the use of space or rooms, together with furniture and equipment, in buildings owned or maintained by the county, by a county mental health association incorporated under the laws of this State, or by any private charity or organization in the county providing aid and assistance for the mentally retarded, with or without the payment of rent and to supply them with the services of county employees, supplementing Title 40 of the Revised Statutes,' approved June 26, 1958 (P. L. 1958, c. 87), as said title was amended by chapter 185 of the laws of 1960, so that the same shall read 'An act concerning counties and authorizing the board of chosen freeholders of any county to permit [the use of space or rooms, together with furniture and equipment, in buildings owned or maintained by the county, by a county mental health association incorporated under the laws of this State, or by certain other organizations providing aid or assistance to mentally *retarded or mentally* ill children, with or without the payment of rent and to supply them with the services] *certain organizations providing aid or assistance to mentally retarded or mentally ill persons to use county facilities and to supply them with the services* of county employees, and supplementing Title 40 of the Revised Statutes,' and to amend the body of said act,''

As amended, pursuant to the recommendations of the Governor.

Was read for the first time and was given no reference.

Mr. Keegan offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the rules be suspended and Senate Bill No. 74 be advanced to second reading without reference.

Senate Bill No. 74, entitled ''An act to amend the title of 'An act concerning counties and authorizing the board of chosen freeholders of any county to permit the use of space or rooms, together with furniture and equipment, in buildings owned or maintained by the county, by a county mental health association incorporated under the laws of this State, or by any private charity or organization in the county providing aid and assistance for the mentally retarded, with or without the payment of rent and to supply them with the services of county employees, supplementing Title 40 of the Revised Statutes,' approved June 26, 1958 (P. L. 1958, c. 87), as said title was amended by chapter 185 of the laws of 1960, so that the same shall read 'An act concerning counties and authorizing the board of chosen freeholders of any county to permit [the use of space or rooms, together with furniture and equipment, in buildings owned or maintained by the county, by a county mental health association incorporated under the laws of this State, or by certain other organizations providing aid or assistance to mentally *retarded or mentally* ill children, with or without the payment of rent and to supply them with the services] *certain organizations providing aid or assistance to mentally retarded or mentally ill persons to use county facilities and to supply them with the services* of county employees, and supplementing Title 40 of the Revised Statutes,' and to amend the body of said act,''

As amended, pursuant to the recommendations of the Governor.

Was taken up under suspension of rules, and read a second time.

Mr. Keegan offered the following resolution, which was read by the Clerk and adopted by the following vote:

Pursuant to Paragraph 6 of Section IV of Article IV of the Constitution, the General Assembly does resolve that Senate Bill No. 74 as amended pursuant to the Governor's recommendation is an emergency measure and that it proceed forthwith from second to third reading.
